The American Numismatic Association, an educational and nonprofit organization, is the largest and most active numismatic body in the world. It invites and welcomes to membership all worthy persons eleven years of age or over, who have a sincere interest in numismatics, whether they collect coins, paper money, tokens or medals, whether advanced collectors or those only generally interested in the subject without being collectors. The association was founded in 1891, and has about 28,000 members from every state in the Union and many foreign countries. It was chartered for fifty years by Act of Congress May 9, 1912; renewed in perpetuity by Act of Congress April 10, 1962 and is a mutual organization for the benefit of its members.

All Association members, except Associate, receive the official publication, *The Numismatist*, without cost other than their annual dues. Membership applications should be accompanied by \$13.00 to cover admittance fee and the first year's dues. Succeeding annual dues are \$8.00. Non-member subscriptions, \$10.00 per year. Single copy \$1.00. For application blanks or other information, write to Executive Director, P.O. Box 2366, Colorado Springs, Colo. 80901.

The Numismatist is an illustrated monthly which has been issued continuously since its founding in 1888. It consists of 200 pages or more in each number with subscribers in about sixty countries. Advertising inquiries should be sent to the Advertising Manager. All other matters for possible publication in or concerning *The Numismatist* are to be forwarded to the Editor. PART I

There are a number of studies of small groups of countermarked coins from specific cities or rulers, but no general survey. It is hoped this will fill the gap. For a number of reasons such a catalogue is needed. The descriptions given of ancient countermarks are not uniform and the same piece is often seen described in radically

different ways. Also countermarks can be an aid to the identification of ancient coins. Some countermarks are so unusual as to make attribution of even worn coins relatively easy. One such example is the issue of Roman Antioch showing Athena standing right, holding a spear and leaning on a shield (Fig. 1). Rarely, however, are the inscriptions in countermarks sufficient in themselves to allow correct identification.

Fig. 1: Roman Antioch.

The hazards of such a listing are not insignificant. In many cases the date of the original coins can only be approximated. The dates given for countermarked pieces are thus multiplied in their inaccuracy. Countermarks, almost of necessity, are rarer than ancient coins. If they were applied to issues of more than one city, it may not be possible to correctly state their origins.

In addition to local countermarks, Roman imperial countermarks are found on Greek and Greek colonial coins, although not extensively. Ancient countermarks were generally applied either to sanction continued circulation or extend the territorial circulation of the coins they appear on.

We have assumed that a countermark is the issue of the city on whose coins it is found, unless there is evidence to the contrary. Many of the comments on particular issues are not original with the author, but come from the various reference works cited. The study of ancient countermarks is still in its infancy and future knowledge may change some interpretations.

On Greek colonial coins, *i. e.*, the issues of Greek cities under Roman control, there are found a number of very small countermarks which appear to be of emperors and their families. Many of these are of such small size and little detail as to

preclude identification to specific personages (Fig. 2). For this reason the suggestion that they represent acts of reverence for the emperors who appear in these countermarks can be dismissed. They were probably meant either as authorizations for continued circulation or insurances against counterfeiting. An example of the latter is found in the countermarks of the 16th century rulers of Malta. They made the assumption that counterfeiters might be able to duplicate coins, but would be unable to reproduce small countermarks. (This did not work.)

Fig. 2: Maximinus from Nicaea in Bithynia.

Only where specific emperors can be identified, or there is something unusual about the marks, is this type of countermark listed specifically. The vast majority of these small countermarks can be described as heads or busts facing right.

Many single letter countermarks are found on ancient bronze coins. These are, in most cases, denomination marks. In the Roman East the abbreviations for assaria denominations are most often seen as:

B = 2 Δ = 4 S = 6 H = 8 Γ = 3
E = 5 Z = 7

A letter resembling the modern numeral "5" often appears on late colonial bronzes. This could be variously interpreted as "C", "S", or "ξ", which would give

About the Author

Greg Brunk, 25, is the author of several articles on ancient and countermarked coins. He is a life member of the ANA, a fellow of the Royal Numismatic Society and American Numismatic Society, and a member of the Society of Ancient Numismatists. His major numismatic interest is in copper and countermarked coins of all periods.

Currently working on a Ph.D. in political science, Brunk has an MA in history from the University of Illinois and an MA in political science from the University of Iowa. Brunk is a resident of Waterloo, Iowa.

denominational readings of 3, 6, or 7. It is reproduced here as "S", variations occasionally being shown for clarity. The confusion is due to variance from the modern Greek letter form. Herein all letters are shown in orthodox form, except "Ω", which closely resembles a "W" on late Greek colonial coins and is reproduced as such.

The number of countermarks on any particular series of coins is at least partly related to the military and economic stability of the area. No countermarks are known on the Roman issues from Alexandria for Egypt, which is an indication of that province's stability. Most Roman countermarks were processed on the German frontier. The numerous countermarks on many bronze Greek colonial coins probably reflects a situation in which their value was not stable.

Descriptions of countermarks are given as detailed as possible. Complete accuracy has not always been achieved. This is partly due to the worn condition in which ancient coins are sometimes found and the fact that abbreviated descriptions are often given in reference works. When a countermark is known to be incuse it is so listed, but it is suspected a number of others are also incuse.

When five or more citations for one countermark are given, only the number from each source is shown. An example of this would be VA(23) = Von Aulock Sammlung, *Syllage Nummorum Graecorum* examples. When

there is no reference given the countermark has either come from the author's collection or a photograph of it has appeared in a recent auction catalogue.¹ This element of research has been limited to photographed specimens for the sake of accuracy. Only from the bibliographical sources has the accuracy of other authors been relied on to the extent of including countermarks not illustrated. It is hoped this has resulted in a reasonable listing of ancient countermarks, although it is by no means complete.

One should not make the mistake of assuming simply because an ancient coin is countermarked it is authentic (Fig. 3). The ingenuity of counterfeiters has even extended to inventing unrecorded countermarks to make pieces more attractive.²

Fig. 3: A fake sestertius of Claudius with the NCAPR countermark of Nero.

¹It is not practical to list citations in the section on Roman countermarks. Neither will British Museum Catalogue numbers be given in instances where examples are taken from a variety of different numbering sequences.

²See "A Countermarked Coin of Ariarathus VII?" by George Taylor, *Numismatic Chronicle*, Ser. 7, Vol. 6, pp. 221-224.

Countermarks are not easily photographed. In many instances the monograms that appear as counter-

marks have been reproduced schematically to overcome this problem.

MACEDON

The issues of Alexander the Great circulated as a continuing trade coinage for two hundred years after his death. Many more coins were in close imitation of his. This general class of silver coins is found countermarked by a number of authorities (see Byzantium, Rhodes and Kings of Syria). There is also a group of countermarks most often found on the issues of Side, Pamphylia, but also appearing on silver coins of Alexander (see Side).

One countermark issued by the Romans is found on this type coinage, although most often on tetradrachms of Lysimachus. This was issued by Tiberius Plautius Silvanus Aelianus, Proconsul of Asia circa. 54 A.D. The countermark is CL•CAES•. It is generally assumed this tariffed tetradrachms at the same rate as Roman cistophori, i.e., three denarii, which was a devaluation of 25%. At times there also appears an incuse Δ countermark with the CL•CAES•, which indicates somewhere the coins were valued at the standard rate of four drachmas.

BYZANTIUM AND CALCHEDON

These countermarks are found on a wide variety of the silver coins of Syria, the issues of Alexander the Great, etc. It appears that both cities were switching from an Attic to Rhodian weight standard for coins at the same time. (Calchedon is in Bithynia, but these issues are listed here due to their similarity to the Byzantium countermarks). The countermarks allowed older coins to circulate along with the new, even though they were issued on different weight standards. (There are minor variations known in letter styles in these countermarks.)

ATTICA

ATHENS (6th-4th Cent. B.C.)

As with other early coins, the very early issues of Athens are found with bankers' countermarks. These were used to test the metal of coins that passed through bankers' hands and then served as assurance of the coins' quality. There are not necessarily of Attic origin.

CORINTHIA CORINTH (44-42 B.C.)

The countermark of the "open hand" is found only on coins with the head of Julius Caesar issued by L. Certus Aeficius and C. Julius. It is the theory of MacDowall that his was applied from the time of the assassination of Caesar in 44 B.C. until the defeat of the anti-Caesareans at Philippi in 42 B.C. During this time republican sentiment was high in Greece and the countermark is probably symbolic in some way of this.

CRETE (5th-4th Cent. B.C.)

M. Jean Svorones in his "Origins of Coinage" relates an unusual countermark, which he calls a caldron, is found on staters of at least twelve Cretan cities: Gortyna, Cnosos, Apta, Cydonia, Eleutherna, Lyttus, Moda, Praesus, Priansus, Sybritia, Phalasarna, Tylisus. This was apparently applied by a general legislative authority, which established an island standard. The countermark appears only on Cretan silver staters. In all cases but one, the caldron is seen from the top. This mark has sometimes been called a pomegranate.

These sets of countermarks appear one on the obverse and one on the reverse of the same coins. FROM YOUR PRESIDENT

VIRGINIA CULVER

Numismatic activity continues strong in the aftermath of our most successful convention in Miami Beach, Florida. Our association is benefitting in many ways from the excellent national publicity. September was a record month for new members — 868 plus fifteen new life members. Special thanks are due Paramount International Coin Corporation who was responsible for 266 of those. September was also a record month for donations. We received \$5000 in cash and approximately \$150,000 in material. The very large material donation accrued mainly from the balance of the Herdegen Collection being assigned to the Association.

It was my pleasure to cut the ribbon for the Illinois Numismatic Association's convention held in Decatur. Our association had a table manned by Governor Glenn Smedley and the ANA gained new members and friends.

Two lovely frames containing three panels of FAO coins were presented to the Chairman of the Senate Agricultural Committee and to the entire House Agricultural Committee on behalf of the American Numismatic Association in Washington, D.C. Governor Eldridge Jones, Executive Director Edward C. Rochette, and I joined Chester Krause for the presentation which he initiated. The presentations were well received by both committees. In the afternoon it was our pleasure to present the Medal of Merit to Ellis Edlow. It was also the opportunity to visit our ANACS office manned by Charles Hoskins, director, and Skip Fazzari, assistant director.

The GENA Convention held in New York City at the American Hotel, where we will be holding our 1976 ANA Convention, held a forum at which time those present were able to see first hand the Continental and Colonial Currency, in the form of slides, which is housed in our museum. My two-fold purpose is to allow you members to see parts of our museum holdings and to also let you know by omission those items which we need — in this case for our Bicentennial exhibit. My grateful thanks to GENA for naming me Woman of the Year at their awards breakfast.

The Utah Numismatic Society held their 11th Annual Coin Show in the Salt Palace in Salt Lake City. It was a special privilege to represent the ANA there as it was a first time for them to welcome an officer of our association. Governor Eva Adams, Val Pasvolksy, and I participated in their educational forum. As a result of the program I'm happy to report the ANA museum now has an additional Continental Currency specimen in excellent condition donated by Clifford Crane with a promise from two other members of a Pennsylvania and a Maryland specimen. These two colonies are not represented in the ANA collection. The genuine friendliness and enthusiasm of the Utah Numismatic Society members will long be remembered, and is a most rewarding aspect of the honor of being your president.

MORE IN '74

The theme of the 83rd anniversary ANA convention, **BACK FOR MORE IN '74**, fulfilled everyone's expectations — oldtimers with memories of many past conventions and first time visitors alike seemed to agree. The Florida United Numismatists, Inc. (FUN) as official hosts, Robert L. Hendershott as general chairman, and Mrs. Eugenia "Jean" Montesi as co-chairwoman, all made this "Floridana II" convention a truly successful encore affair for the 1967 Florida gathering.

Princess Atee-Lo-Yee—Virginia Culver, ANA president — is crowned by Seminole chairman, Howard Tommie.

Pre-registration reached record levels in comparison to the Boston bash of '73. First calculations indicated that the total attendance was also of record proportions; at this time, official final tabulations have not been released.

It is estimated that approximately forty million dollars worth of coins, medals, paper money and a myriad of other numismatic items filled the bourse area in the Grand Ballroom of the Americana Hotel. On numerous occasions, the crowds were so dense it was impossible to identify the table before you.

Monday, August 12

The annual PNG (Professional Numismatists Guild) Day attracted a large collector-dealer attendance. It was also the day for members of the Seminole Indian community to crown Virginia Culver, ANA president, a princess — the first person ever to be crowned an Indian princess at such an event. Princess Atee-Lo-Yee (translated: *gathering or collection*) stood proudly as Seminole Chairman Howard Tommie placed an ornately beaded crown on her head. During the ceremonies, Virginia was garbed in the traditional costume of the Seminole women, a translucent smock top and magnificently embroidered, horizontally striped skirt at ankle length.

Following her crowning, Princess Atee-Lo-Yee and Chairman Tommie exchanged medals with the princess distributing ANA medals among the other Seminoles present.

ribbon cutting — the official opening of the 1974 convention.

One of the first big highlights of the week was the unveiling of trial strikes of the new Bicentennial coins scheduled to begin circulation on July 4, 1975. The trial strikes were flown directly to the convention following ceremonies at the Philadelphia Mint a day earlier, August 12th.

The official convention opening saw Ed E. Eicher, vice-president for sales for the Americana Hotel chain, snip the ribbon barrier with the aid of Edward C. Rochette (l), ANA executive director; Robert L. Hendershott, convention co-chairman; Virginia Culver (r), ANA president; and George Hatie, ANA vice-president.

That evening, the first of five auction sessions began. Following the last session on Saturday afternoon, it was obvious to observers that the numismatic market has in no way weakened. Conducted by Paramount International Coin Corporation, the auction realized \$1.2 million included in which were an AU 1875 \$5 gold piece which brought \$60,000 and a 1796 quarter in AU which went for \$10,000.

Wednesday, August 14

Numerous tours were included in Wednesday's activities: the Parrot Jungle, Miami Seaquarium and the beautiful gardens of Villa Vizcaya. All tours were well attended and enjoyed by participants.

The ANA general membership meeting began in late morning when the convention was called to order by Virginia Culver, association president. Following the invocation and introductions of Robert L. Harry Forman presented the ANA with a \$5,000 check following various committee and officers' reports. The Forman firm is distributor of Madison Mint products and designed and struck the official 1974 ANA convention ingot.

It was not surprising that this was rated as one of the top educational forums in the association's history.

Thursday, August 15

Thursday included the annual District Representative breakfast and the Ladies' Day program which featured a bus-boat tour to Fort Lauderdale where women lunched at Patricia Murphy's Candlelight Restaurant. ANA governor, Eva Adams, officiated as honorary hostess. Lasting for seven hours, the event filled the void for many "numismatic widows" by providing enjoyable entertainment.

Friday, August 16

On the agenda for Friday morning was the annual ANA club representatives' breakfast. Well attended as usual, the meeting provided numerous opportunities for discussion of ideas for bettering the club representative program. Florence M. Schook, Livonia, Michigan, was named the ANA's Outstanding Club Representative for the year. *Calcoin News* and *The Monthly Bulletin of the City of Ottawa Coin Club* were announced as winners of the club publication contest.

At mid-day, young numismatists found to their delight, a bit of sea and jungle. Following this exercise at Parrot Jungle and the Seaquarium, appetites were curbed at a luncheon hosted by the Franklin Mint. A brief talk by Eva Admas highlighted the junior affair. Edwin V. Quagliana presided and, to his surprise, was honored with the Outstanding Adult Advisor of the Young Numismatists award.

Terri Roach, Hamilton, Ontario, Canada, was named Outstanding Young Numismatist. The Hazel Lindstrom Award along with a set of gold coins were presented to her by an ANA representative at the Canadian Numismatic Association Convention the following weekend. The Ray Byrne YN Literary Award went to Peter Kaufman, Woodland Hills, California, for his article, "Greek Gold Coinages." Douglas E. Freund, Scottsdale, Arizona, won the Debbie Jane Gould Memorial Award for his article entitled, "Mint Marks of Spanish Low Countries," with the ANA Junior Literary Award being presented to Charles Sullivan, Washington, D. C., for his work, "Comprehensive Survey of Official Gold Coinages, 1795-1933." Following the meeting, young collectors were presented with bronze medals commemorating the convention and struck by the American Mint.

The ANA Judges Familiarization and Certification Program (JFCP) was conducted in late afternoon under the direction of Chairman Tom Jones. Designed to teach, expand and maintain a nation-wide body of fully trained and competent judges of numismatic exhibits at ANA conventions, the meeting was open only to those who enrolled. The second year for this program, it was once again well attended.

The American Mint struck 3,000 bronze medals as complimentary mementos of the convention.

Saturday, August 17

Saturday morning featured still another breakfast, this time for the Goodfellows, an organization for general chairmen of past ANA conventions. One of their goals is to assist succeeding chairmen at the task at which they are already familiar. Senior Goodfellow present was Harry X Boosel, 1937 chairman. Ten other members were present with Louis S. Werner attending as an honorary member. 1974 chairman Robert L. Hendershott was presented a silver medal by President Culver. The new silver Goodfellow medal was planned at the Boston 1973 Convention and feature the obverse of the 1971 Washington convention medal as its obverse with the name of each Goodfellow and his year of service engraved on the reverse.

By late morning, the second business session was underway. The final report of the resolutions committee, headed by Ray Byrne, was heard. Invitations for future conventions were presented by representatives from Cincinnati, Detroit, Kansas City, Las Vegas, St. Louis, and Toronto, Canada. In 1977 the host city will be Atlanta; a decision is still pending on the 1978 and 1979 sites.

Later that afternoon, the ANA's presentation of awards was conducted. Starting off the excitement were a total of 163 recipients of the twenty-five year continuous membership citations — silver certificates . . . and that wasn't paper money. This latter group included the Canadian Numismatic and American Vecturist Associations. Heath Literary awards, as announced in June and written up in the October issue of *The Numismatist*, were presented.

Ellis Edlow, Genevieve T. Herdegen, and Joseph M. Segal were announced as recipients of the Medal of Merit with Segel being the only one on hand to receive his. Virginia Culver and Executive Director Edward C. Rochette presented Ellis Edlow's to him in his home in Washington, D. C. Chester L. Krause of *Numismatic News*, *Coins Magazine* and *World Coin News* was also on hand. Genevieve Herdegen will receive hers in person at a later date.

William T. Louth, president of Medallic Art Company, offered America's first multi-part medal to Virginia Culver for the ANA museum. The specimen (No. 1) is silver and actually two medals in one: the inner surfaces reveal mirror image designs in relief and incuse and then interlock as one medal.

The numerous exhibit awards were reported in last month's issue were also awarded at this time.

was the exhibit and judging symposium moderated by Adna G. Wilde, ANA governor. The symposium aids collectors by exchanging and discussing effective exhibit ideas. All assistance was provided by head judge, Richard S. Yeoman (Mr. Redbook), exhibit Chairman Gene Hynds and JFCP Chairman Tom Jones.

What followed is what every conventioneer eagerly awaits, the gala banquet. The celebration was highlighted by the presentation of the Farran Zerbe Award to Herbert M. Bergen, popular ANA past president, who was heartily applauded by more than the 800 people in attendance.

The wit of Ralph C. "Curly" Mitchell greeted dignitaries and collectors alike. In addition to the ANA governors and their wives, those honored at the head tables included James Conlon, Bureau of Engraving and Printing; Mr. and Mrs. W. R. Robertson, Royal Canadian Mint; Senor and Senora Jose Luis Herrera Somellera, president of the Mexican Numismatic Society; Mrs. Mary Brooks, director of the Mint; Robert L. Hendershott, convention chairman, and his wife; Eugenia Montesi, convention co-chairwoman; and Faye and Edward C. Rochette, ANA executive director.

Senor Herrera offered a set of silver medals struck at the Mexico City Mint to President Culver for the ANA museum. Eugenia Montesi accepted the host club award for Lawrence Allen, president of the Florida United Numismatists.

The ANA Numismatic Art Award was presented to Abram Belski by William Krieg, Franklin Mint executive. John Jay Pittman accepted Edward A. Gilroy's fifty year membership medal. Gilroy is a past ANA governor and has served as president of the Buffalo, New York, and Rochester, New York, coin clubs. The Detroit Coin Club, LC-2, also received a gold membership certificate for fifty years of continuous membership.

The best-of-show Howland Wood Memorial plaque was awarded to Emil Voigt for his display, "Sculptors and Their Medals."

A "Salute to the ANA" medal struck by the Franklin Mint and given to each banquet ticket holder was also presented in 24 karat gold on silver to Virginia Culver and Arthur M. Fitts III for the ANA museum. During the banquet festivities, Virginia Culver praised Mary Brooks for her assistance in the issuance of the 1974 National Coin Week presidential proclamation. Mrs. Brooks was also helpful in securing the Bicentennial coin display at the convention.

The final presentation of the banquet was made to Mitchell for his work as master of ceremonies.

The NLG chorus line, P. M. Williams, Betty Medlar, Virginia Culver, Margo Russell and Eva Adams. Eva Adams was later presented the NLG "Clemmy," the highest honor bestowed by the organization of numismatic writers.

Sunday, August 18

Sunday was a continuation of the bourse activity with public attractions open as well. The ANA press breakfast which was held Monday morning featured members of the press sharing appetites and convention news with members of the official ANA family. That afternoon brought for many what was to be the second half of this year's convention — the post-convention cruise to the Bahamas — Nassau and Freeport. Due to the popularity of the event, plans are already underway for another post-convention cruise following the 1975 gathering in Los Angeles.

The candid camera captures Mary Brooks, director of the US Mint.

Benjamin Franklin (Ralph M. "Curly" Mitchell) shares bits of wisdom with NLG gathering.

And . . .

There it is, the ANA convention story for Bal Harbour, 1974. Actually there is a bit more; always an attraction are the many numismatic specialty groups that gather with the ANA. Starting with the Professional Numismatists Guild, groups conducting at least business meetings were: Society of International Numismatics (SIN), Lewis M. Reagan Foundation, Early American Coppers, Elongated Collectors, Society of Medieval Numismatics, Love Token Society, Numismatics International, Latin American Notaphilic Society, Token and Medal Society (TAMS), Society of Ration Tokens Collectors, Check Collectors Round Table, Organization of International Numismatists (OIN), International Order of Wooden Money Collectors, Old Time Assay Commissioners Society (OTACS), Inter-

national Bank Note Society, Society of Paper Money Collectors, Civil War Token Collectors, Numismatic Literary Guild, Society of Philatelists and Numismatics (SPAN) and the American Israel Numismatic Association.

The 83rd ANA convention is history now, a long and difficult but well-managed job for all of the local committee workers, but the memories of this busy and colorful convention will linger in the minds of those who attended.

Edward E. Eicher, vice-president for sales for the Americana Hotel chain, and the many employees who worked behind the scenes planning and re-planning this convention deserve special praise for their service and consideration.

Next year — it is on to Los Angeles for our 84th.

During the recent ANA 83rd Anniversary Convention in Bal Harbour, Florida, special counterstamped conventions badges and medal sets were made available to collectors.

Since the 1974 convention was an encore for Florida, also host in 1967, a special counterstamp was prepared of the current convention theme reading, **BACK FOR MORE IN 74**, and applied to the reverses of a few of the remaining 1967 Florida convention badge pendants and medal sets.

The initial counterstamping was performed before the collectors' eyes at the ANA table during the convention. Now, a few are still available for purchase by collectors. The badges and medal sets (illustrated here) are priced at \$3.00 and \$15.00 respectively, the same as the original issue price.

To order this first in ANA history counterstamp, address orders to: ANA Convention Counterstamp, P. O. Box 2366, Colorado Springs, CO 80901.

US MINT CUSTOMHOUSE SERIES

Two more medals in the series commemorating customhouses in the United States have been struck by the Bureau of the Mint in collaboration with the US Customs Service.

The 1-5/16-inch bronze medals honoring the New Orleans Customhouse and the old Galveston Customhouse, Courthouse and Post Office building join the five issued earlier in the program. Other medals issued in the series depict customhouses in Georgetown, Washington, D. C.; Boston; San Francisco; Wheeling, West Virginia; and Savannah, Georgia.

The medals, which feature the seal of the US Customs Service on the reverse, are available for 50 cents at the Mint's exhibit and sales areas in Philadelphia, Denver, San Francisco and at the Treasury Department building in Washington, D. C. They may be ordered by mail through the San Francisco Mint, 55 Mint Street, San Francisco, California 94175 for 60 cents each. A 3-inch bronze medal of the Georgetown Customhouse is also available in the Mint's sales areas for \$5 and by mail for \$5.25.

The New Orleans Customhouse medal, designed by Edgar Z. Steever and Sherl J. Winter of the Philadelphia Mint, was released on Wednesday, October 2, 1974, during National Port Week festivities in New Orleans. The event coincides with the U.S. Customs Service's 185th anniversary year.

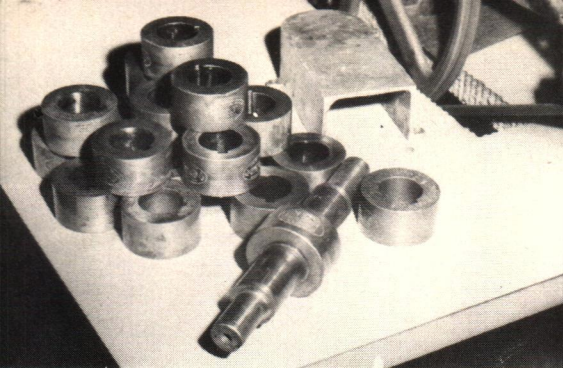

Fig. 1: SELECTION OF DIES. Two types of dies used on the elongated machines are illustrated. Most dies will have more than one design.

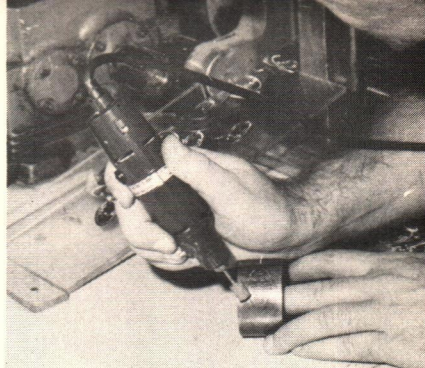

Fig. 2: CANCELLING A DIE. To assure limited mintages many rollers damage the die deliberately so that additional coins cannot be run.

In this era of getting less for your money it is nice to know that there exists an entire phase of numismatics in which *stretching the coin* is the entire reason for its existence. Before you get the wrong idea, it should be explained that elongated coins are normal United States (and sometimes foreign) releases that have been placed between steel dies and converted to modern commemorative coins. The normal Lincoln image on cents looks something like a distorted mirror picture with right reading but with Modigliana's stretched imagery technique.

Most numismatists are familiar with the elongated coin. The oversize coins of yesteryear have been around since 1892 usually depicting a world's fair in some fashion. Most of this group, ranging from 1892 through 1934, are now hard to locate and very few are considered costly. One of the assets of the hobby is the relatively inexpensive cost of most elongated coinage. Practically any collector who has enjoyed the coin hobby for some time owns at least one elongated that has suddenly merited added attention.

Elongateds are made primarily by three techniques. The oldest and probably the one requiring the most skill is the group of hand engraved elongateds. This method illustrates individual styles of the artists. A gravure, high powered magnifier, die holder and determination are the tools of the trade. The die is actually cut (all images are intaglio and reversed) and the degree of depth determines the height of the finished line on the coin. One expert has worked more than fourteen hours on a single die.

In the second technique pantographs are used which are usually operated in commercial shops; these machines have a steel cutting stylus that makes

an even and deep line when needed. They also necessitate subject matter having a master which can be costly. Two and three dimensional pantograph dies are used. The three dimension dies are expensive and require a model with height, width and depth so few elongateds are made via this technique.

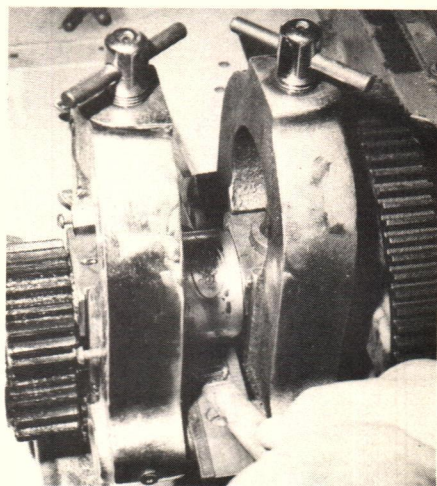

Fig. 3: ROLLING A COIN. An elongated machine is depicted showing a cent about to pass between two steel dies. An incused image on the die produces a raised image on the cent.

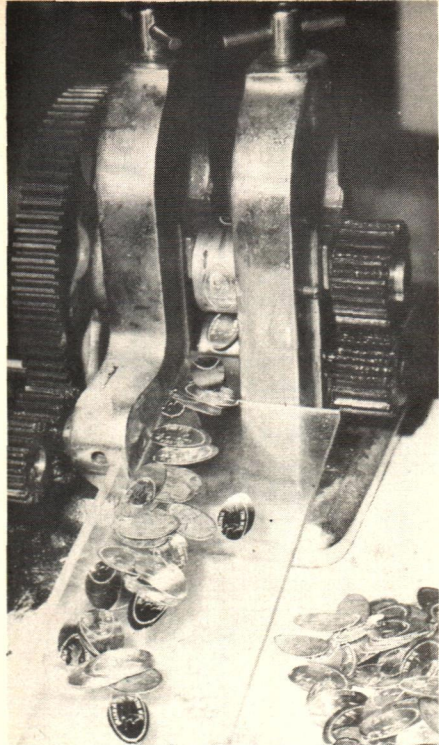

Fig. 4: A SELECTION OF ELONGATEDS. Average mintage of elongateds is close to 200 with 1,000 being considered a large mintage.

The third group of elongateds are made by photo fabrication or photo milling and it is this technique that is responsible for the upsurge in quantity and subject matter. Basically, the photo method requires line artwork, a line film, a good camera capable of close-up work and a darkroom that has adequate ventilation. The artwork is the ingredient that will determine how successful the completed elongated will be. Fortunately, some mechanical means exist to help the untalented. (Photos can be traced. Photos are also inked and the picture bleached away to retain all details.) The exact definition of the subject can be reproduced although there are limitations. We have even seen a photograph on an elongated with more anticipated. In this instance the roller stunned the hobby by introducing a coin with Lincoln on one side and a portrait of the roller's wife on the other. It was an excellent contrasting view depicting yesterday's history and tomorrow's world of unusual elongateds.

Fig. 5: NOVELTY ELONGATED. A coin club rolled this issue, kept the original for display and made a profit by selling 200 cancelled coins. This is a pantograph-made elongated.

Examples of subjects currently being made illustrate why the hobby is now at an all-time high. Imagine the prose seen on the Statue of Liberty — all 122 words — on a one cent piece and all words are legible! Old time movie buffs can see an exact re-creation of ads for motion pictures made in 1923. Tom Mix and movie vamp Constance Talmadge are featured. Slogan coins covering love, friendship, mottoes and advice are popular. Add to that roster many store cards, commemoratives featuring Presidents, news events and both the famous and the infamous and you have the recipe for elongated involvement.

Why do people collect elongateds? Some reasons are obvious. Limited mintages, usually under 1,000, make the coins a potential investment but even without this factor elongateds

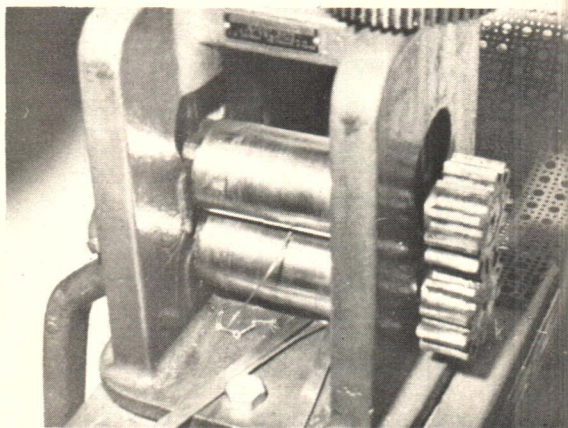

Fig. 6: JEWELER'S MILL. Jewelers use machines similar in shape and size to the average elongated. The basic idea is to stretch metal.

are truly miniature masterpieces of art. The coins are generally inexpensive and can fit the budget of everyone in the family. Subjects are so diverse that personal interest issues become easy to find. Children may treasure nursery rhymes on cents; dad will like the sport events and mother will enjoy elongateds that make time stand still by immortalizing the past, present and possibly the future.

If you have not been paying attention to the elongated cents, you may be surprised to note that much has been

Fig. 9: TRUE COMMEMORATIVE. An elongated to honor Alice Moon who became Mrs. Steve Penzes during the TEC meeting at the ANA Convention August 21, 1970.

happening. At least three clubs exist which are devoted exclusively to this specialty. The major club is known as *The Elongated Collector* or simply as T.E.C. It meets annually during the American Numismatic Association's convention. A bi-monthly newsletter is the point of contact for members during the rest of the year. Another fine organization, the *Mid-West Collectors of Elongateds*, meets in Chicago. The far West is not neglected since each month a group of California residents meet in Santa Ana under the name of the *California Collectors of Elongateds*. All three clubs give free coins to members with the newsletters.

Incidentally, the future of elongated collecting is promising. With aluminum coins possibly on the horizon we can anticipate a surge of demand for copper cents of yesteryear. Aluminum is soft and just as details on cents are being promised so, too, will better quality elongateds be produced from the softer alloy.

The machines that roll elongateds are not complex. Any jeweler's mill is almost identical to a rolling unit. Two

Fig. 8: PNC COVERS. Elongateds are used in numerous Philatelic-Numismatic combination covers. This Christmas issue is but one of a large selection of popular covers.

Fig. 10: LORD'S PRAYER. A wide variety of Lord's Prayer dies have been produced since the inception of the hobby. They have become a collector's topical field.

Fig. 12: FOREIGN COIN. Although some nations frown upon the use of their coins for elongateds, a variety of issues covering the globe are known. This is an Israeli coin.

steel dies form the heart of the metal stretching roller and one die is used as a base while the other has the reversed image cut into it. Coins are usually done manually but some automation is used.

There is little danger of anyone catching fingers between the die but wearing a tie while working is not recommended. A well known joke in the hobby tells about the roller who got hurt while making elongateds. "Visitors can see him in rooms 10, 11, 12 and 13." Another gag probably not worth repeating describes a contest between rollers to see who could make the longest elongated. Roller A made a coin six inches long. Roller B stretched a cent twelve inches but everyone stopped in astonishment when a three foot long image appeared. The obvious winner was as astonished as the losers until he burst out with, "My gosh, it's my pocket watch!"

Elongateds are pleasurable to own and enjoyable to see. In fact, elongateds add up to FUN. The slogan of California Collectors of Elongateds is "Stretched Money Is Like Elongateds." The first letter of each word becomes SMILE . . . telling the true story of owning elongateds.

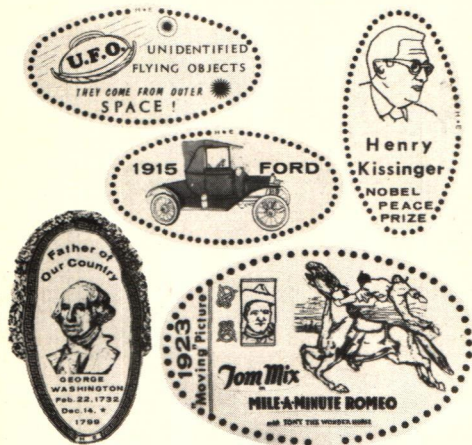

Fig. 11: ARTWORK. Line art depicts first step in creating an elongated. Photography is usually used to reduce subject to actual size. This group depicts a portion of the wide range of elongateds currently available to collectors.

There has been little literature to guide the coin collector through the elongated maze. Dottie Dow has written what is regarded as the standard in the field. Her book with its 1,000 copies is hard to locate; at the 1973 Boston ANA convention it was offered for seventy dollars. Several rollers have compiled lists of their issues and author Martin has released his own book, **Today's Elongateds**, but unfortunately it was a limited edition of 200 and all copies were pre-sold. Only a very few will probably find their way to dealers' shelves but you can borrow the ANA's copy if interested.

Great news, juniors! The ANA Board of Governors has authorized a splendid give-away program for the exclusive benefit of all young numismatists. There is no catch to it and there are no costs involved. Just what are the give-aways? They are Roman coins, attributed as to emperor and denomination.

Now, the sixty-four dollar question: What are the conditions for giving away Roman coins? Before enumerating these conditions let us understand one important statement: coins are earned, not won. In other words this is not a competition among a group of juniors wherein a small number of possibly more talented juniors will win the bulk of the prizes, in this case Roman coins. Rather, the only competition that a youngster will encounter is with himself. So long as he fulfills the specific requirements, which are, incidentally, anything but rigorous, he will earn a Roman coin. You might then logically ask: If the requirements are not rigorous is there any real challenge to compete? Oh, yes, indeed. The ultimate goal is to earn four Roman coins, and it is safe to predict that although all juniors are capable of earning this peak number of coins, only a very tiny handful will actually accomplish this feat.

Now then how do you earn a coin? As a starter, suppose your club does not always come up with a program at meetings. This is where you come in. You just tell your program chairman that you would like to present a program at an early meeting. As an interesting by-product of your volunteered action, you will be his friend for life. Now you can bring any sort of a program that you like, but if you don't know how to entertain your fellow club members, and if you are looking for the easy way out, then write to Mrs. Mary Thompson in Colorado Springs (ANA, Box 2366, 80901) and ask her to send you a set of slides. Give her several of your preferences so you are sure to get one of your favorite topics.

When you have completed your

program, fill out a form that you obtain from me. Then mail it to me promptly. By return mail you will receive your Roman coin. What could be simpler, and frankly more useful?

Are there other ways to win a Roman coin? You had better believe it! Here are five more:

2. Exhibit at a show other than one's own club. (If a junior belongs to a second club, exhibiting at both clubs fulfills this requirement.)
3. Write a numismatic article of any length that is published. (This can be as simple as writing up a club meeting for publication in a club bulletin.)
4. Hold office in a coin club.
5. Chair any activity in a coin show.
6. Earn a Coin Collecting Merit Badge in Boy or Girl Scouting, Campfire Girls, etc.

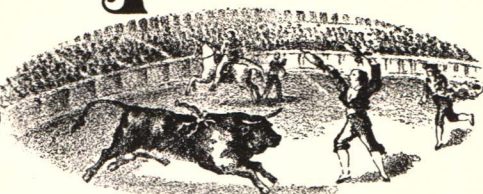

Now for a very important concept of this program. The goal is not to see how many coins a junior can earn. Rather it is to see how many different juniors can earn coins. Therefore a restriction is adopted limiting each junior to three coins, further restricted to not more than one in any single category.

Is there any other way to win another Roman coin? Yes, but look for this in next month's issue of *The Numismatist*.

When does this program start? Right now, today. This means exactly what it says. You cannot fall back on what you did yesterday. This is today's and tomorrow's program, not yesterday's.

Young numismatists, let's get started. Write me today for a request form for a Roman Coin. Each time you earn a coin I'll send you another form. Write to: David R. Cervin, 6201 Adirondack, Amarillo, Texas 79106.

Gillett, Colorado

The name Cripple Creek was universally accepted as the name for the total urban area of "The World's Greatest Gold Camp." Although the Cripple Creek District was only twenty square miles in area, it included the following cities and towns: Cripple Creek, Victor, Goldfield, Altman, Cameron, Gillett, Independence, Elkton, Anaconda and Midway. Gillett, one of the smaller cities of the district, inscribed for itself a permanent niche in the early gold mining history of the western United States.

Each summer during the annual numismatic seminar, co-sponsored by the American Numismatic Association and Colorado College, students on the field trip to Cripple Creek and Victor pass through what was originally known as "The Gateway City," Gillett. At one time, it was the first city you entered as you approached the district. Today, were it not for a small roadside sign designating Gillett, one could not tell when he arrived at or departed from this historical spot.

Gillett was originally located and platted by the Beaver Park Land Company. This company consisted of a group of local bank and railroad in-

vestors who were financially interested in the midland terminal railroad. They named the site in honor of W. K. Gillett, passenger auditor of the Santa Fe Railroad, who was responsible for obtaining the necessary capital for the final construction of the Midland Terminal. The Midland completed construction from Colorado Springs to Gillett on July 4, 1894, but its line did not reach Cripple Creek until December of 1895. Since the area around Gillett contained the only level area for many miles, the railroad established a large switching yard, roundhouse and shops at this site.

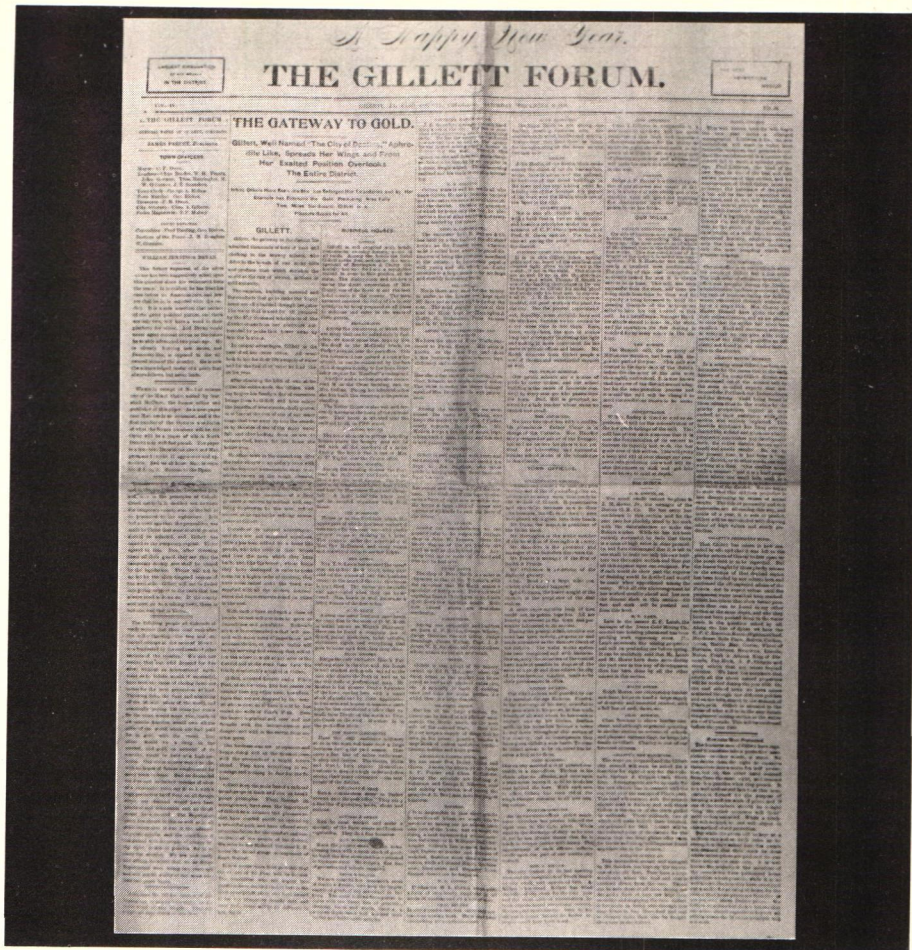

It was only after the arrival of the

The front page of *The Gillett Forum*, December 31, 1898. This was the fourth year of publication for this paper. The lead story, "The Gateway to Gold," proclaims that, "No other town in the district can offer the inducements of an orderly town with all the innocent amusements, away from what is known as the rough elements." railroad that Gillett began to develop. A post office was established and opened on August 29, 1894, and during the same year, the Bank of Gillett was organized and opened. A reduction mill was constructed and placed in operation; this mill had a capacity of 100 tons of ore per day and employed nearly 100 men. The Lincoln Mine was the major producer in the Gillett area with ore averaging \$114 a ton. The city was regarded as the "natural residence town" as well as the summer resort of the district. Gillett had Evangelical,

Congregational and Roman Catholic churches. Ruins of the Catholic church still remain; it was destroyed by fire in 1954.

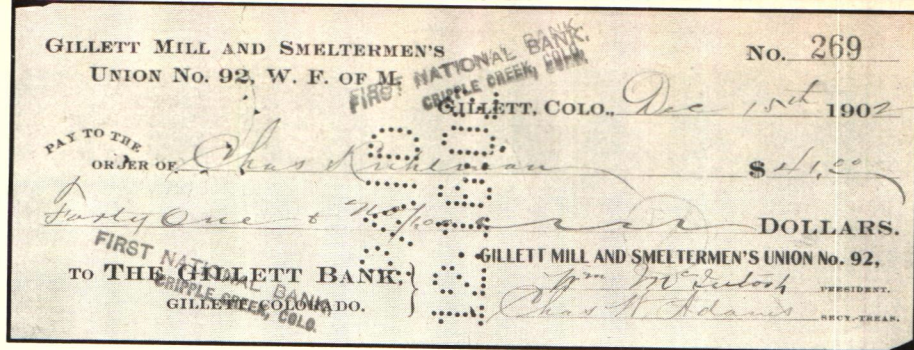

By 1896 Gillett boasted a population of over 2,000 people. A horse track, the only one in the district, was located northeast of town. Harness racing became a popular sport. Just south of the race track, a well appointed gambling casino attracted many of the miners of the district who had hit it lucky.

Although historical records reveal that Dodge City, Kansas, attempted to hold a bullfight in 1884 which allegedly lured 4,000 spectators, it is a matter of record that Gillett **did** hold the only full-scale, legitimate bullfight ever staged within the United States. News of the event was telegraphed throughout this country when the spectacle was scheduled for three days, August 24, 25, and 26, 1895.

"Arizona Charlie" Meadows, an itinerant cowboy, and Joe Wolfe, a gambler and confidence man, were the promoters of this fiesta and equestrian carnival. The Joe Wolfe Grand National Bullfight Company was organized, and Wolfe appointed all of the elected officials of Gillett to the

board of directors of the company. Wolfe rented the horse track and constructed a 5,000 seat bullring on it. It was advertised that Cavlos Garcia, "The World's Most Famous Bullfighter," and a full troop of matadors would display their skills. In addition, La Charrita, "The Only Lady Bullfighter in the World," along with a carload of Cazadero bulls were scheduled for appearance. "Arizona Charlie" took advantage of the opportunity to extol his own accomplishments by proclaiming himself, "The King of the Cowboys—America's champion all-around shot, and the only living man who performs the difficult feat of shooting flying targets from a running horse with both pistol and rifle. Exhibited before all the crowned heads of the world. The winner in one hundred cowboy tournaments and contests."

The first of many problems involving the proposed bullfight developed when the Humane Society of Colorado Springs learned of all that was happening. As a result of protests filed with state and national agencies, they were successful in securing a government order that prevented bulls from being transported across the

This check was issued by the Gillett Mill and Smeltermen's Union No. 92, Western Federation of Miners. It was originally drawn on the Gillett Bank, but since the bank closed operations in mid-1902, the account was transferred to the historical First National Bank of Cripple Creek. An overstamp on the above check denotes the fact. Checks on the Gillett Bank are extremely rare.

Mexican border. Joe Wolfe was determined to continue as planned and busied himself with procuring substitute bulls from a domestic herd at a nearby ranch.

On Saturday, August 24, 1895, the first day of the scheduled bullfight, special trains were run from Denver and Colorado Springs. Some printed records indicate there were about 50,000 people in attendance, but the author is more inclined to accept the more conservative report of 10,000. There are newspaper reports telling of many people who were on nearby hills and in trees, thus avoiding the five dollar ticket price.

During the big event, several unenthusiastic bulls were killed, the first requiring twenty-one minutes. A special report to the *Rocky Mountain News* stated:

In the arena of the vast skeleton-like amphitheater at Gillett this afternoon was given the first bull fight ever carried out on American soil. Matador Marrero, the Spadra of the company, advanced slowly into the arena, an imposing looking figure in his magnificent costume almost covered with gold embroidery. In his right hand he held a long shining sword and in his left a heavy broad flag of red. Quickly the animal went charging to the further side of the arena. The matador crossed the arena, the nervy bull-fighter made a savage thrust at the bull's heart, but missed it and left a wicked wound from

which blood poured. Then after long maneuvering he struck for the first vertebra of the neck, but the sword point struck the base of the heart. He again got the bull directly facing him and as the beast lowered his head to charge, the strong arm of the fighter sent the sword to the death spot and the fight ended.

Jose Marrero lowered the point of his sword, came across the ring with the magnificent air of some conquering general and saluted manager Wolfe with a smile of satisfaction. The manager lifted the big Mexican hat he was wearing in response and the fighter turned away, remarking apologetically, "No good bull."

Immediately following the killing of this bull, Matador Marrero, Wolfe and all the other principals were arrested by Sheriff Bowers on a complaint filed by a Humane Society officer, and they were charged with cruelty to animals. All were escorted to the justice court and all principals except Wolfe were fined \$5 each. There is no record available as to the amount of the fine imposed on Wolfe.

As a result of the adverse publicity, only about 300 persons attended the second scheduled bullfight on Sunday afternoon, August 25. This proved to be a very disappointing performance. Two of the bulls would not fight and two others fought only enough to get killed. Everyone involved was promptly arrested again, with the dis-

trict attorney filing the complaint, resulting in more substantial fines being levied. It has been stated that the law enforcement officers at the time stated they had placed the promoters "behind bars to protect them from the angry crowds which resented being taken." There was one beneficial result of the entire fiasco; the dead bulls were butchered and the meat was given to poor families of the district.

The fight scheduled for Monday, August 26, was cancelled and Joe Wolfe hastily departed from Cripple Creek, just ahead of his creditors. He subsequently appeared in New York where for a number of years he operated a restaurant. Existing records do not indicate in which direction Arizona Charley departed. Prior to becoming involved with the bullfight, Joe Wolfe had been manager of the Palace Hotel of Cripple Creek. Wolfe did achieve immortality by stag-

ing the only Spanish bullfight ever held in the United States.

As gold production in the Cripple Creek District began to wane, Gillett's population likewise declined. In 1900 the population was only 524 people. On March 15, 1913, the post office was closed and Gillett then assumed the status of a ghost town. In June of 1962, the dam of Gillett's reservoir broke, sending a torrent of water over what remained of Gillett and washed away the remaining vault of the Bank of Gillett.

Today a beautiful paved highway leads south of Divide and passes through what remains of Gillett. Only two buildings remain, along with several small, farm-type structures; adjacent to these is a wind sock to assist light planes which occasionally land in the flat meadow.

Yes, checks CAN tell an interesting story!

virgil hancock's FEATURING FAKES

Murder will out!

And so will the sale of a fraudulent coin!

Except that, more often than not, years go by before the victim or his widow learns he'd "been had" back in 1967 or earlier. And the seller by now may be long gone!

Many a widow has discovered that the scarce and rare coins her now-deceased husband had bought years ago either were highly over-graded or were just plain counterfeits.

And rarely does the widow know from whom her husband had bought the coins, because very, very few collectors keep a card index on their coins . . . which would tell the widow the when, for how much, and from whom his coins had been bought. In the instance of the above pictured gold 8 escudas dated 1712, of the Lima, Peru, mint of Spain's King Felipe V, it was bought on May 9, 1967.

Fortunately, this collector did keep an accurate record of the when, for how much, and from whom his coins had been bought.

Thousands of genuine silver Spanish American coins were recovered from the wreck of the Santo Cristo de Roman y Nuestra Senora de Rosario which sank on July 31, 1715, off the east coast of Florida two and a half miles south of Sebastian inlet. From time to time a small quantity of these genuine pieces appear for auction.

The big "find" was the Nuestra Senora de Las Nieves y Las Animas, south of Fort Pierce, Florida, in 1964. The quantity of gold was so huge that it became known simply as "The Gold Wreck." These genuine gold pieces, too, occasionally are offered at auction in relatively small quantities.

However, let me emphasize that not one gold "finger" was recorded as having been found in that wreck, nor in any other wreck of which I know.

Some allegedly salvaged gold "fingers" have been unloaded on trusting "investors" from time to time, but nobody yet has convinced me that those "fingers" ever saw any of the Spanish treasure fleet. These things measure from six to ten inches by about ½ inch wide, and are sold at from \$4,000 to \$10,000 each. So, if one is offered to you, run... don't walk... to the nearest exit!

Whether these gold "fingers" are manufactured in one of the several backyard "mints" in Florida, or in New York, I haven't learned. But the existence of such backyard "mints" and their faked products have created skepticism about all

Spanish Colonial specimens, and the genuine pieces have suffered.

If ever you find that you've been sold a fake, and you're convinced it was sold with the intent to defraud, and not through an honest mistake, please be willing to "get involved" and spend the time and the money to seek court action. Check with the Office of Domestic Gold and Silver Operations to learn if the manufacturer of these gold pieces has been issued a license to manufacture gold.

In 1967, you may recall, magazines and newspapers had been full of romantic tales of the vast treasure being salvaged from Spanish galleons sunk in the 1600's and 1700's off the coast of Florida while enroute to Spain from northern South America and Mexico.

The trusting tourists naturally became prime pigeons for any Floridian wanting to unload his counterfeited Spanish Colonial coins or faked artifacts purporting to have been salvaged from the Spanish wrecks.

Crooks flocked to Florida, adding to any "local talent" which might have been there.

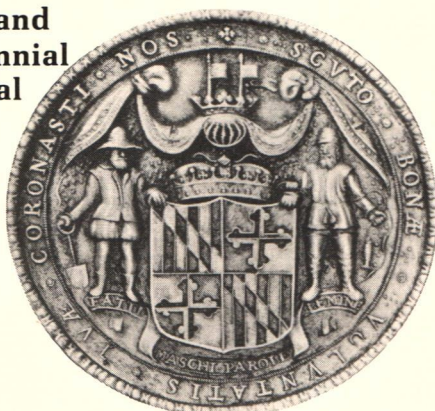

The sharpies, both the immigrant and the native, found they could "salvage" a profitable treasure without even getting their feet wet. Of course, such "treasure" came from the checkbooks the tourists brought to Florida, although the sharpies were never reluctant about milking a native Floridian who hadn't yet gotten wise.

All the crook needed would be ten bucks' worth of equipment . . . a crucible in which to melt gold or silver, a small acetylene torch cylinder, a few plaster molds. And, of course, some precious metal.

Faked gold and silver crosses, bars, gold fingers, coins, gold toothpicks were manufactured, and, I suspect, are still being manufactured,

Frankly, Folks, don't we all owe our fellow citizens the protection which we might furnish, if only we all were willing to "get involved" to put the sharpies behind bars?

Maryland Bicentennial Medal

The Maryland Bicentennial Commission, utilizing impressions from the original 326-year-old great seal of the state, is commemorating the nation's Bicentennial with the release of an official limited edition medal.

The medals are available directly from participating member banks of the Maryland Bankers Association and the Maryland Savings & Loan League or by mail from the official medallists, Medallie Art Company, Old Ridgebury Rd., Danbury, Connecticut 06810.

A 2 1/2 in. antique high relief art medal, in .999 fine pure silver, is limited to 5000 individually numbered specimens and priced at \$75.

A 1 1/2 in. coin-relief antique silver medal, at \$20, and a 1 1/2 in. coin-relief antique bronze medal, at \$2.50, are available in an edition to be determined by demand.

Also available is a matched presentation set of a 2 1/2 in. high relief antique bronze medal, a 1 1/2 in. 24 kt. gold vermeil on pure silver and a 1 1/2 in. antique silver in a deluxe jeweler's case. The edition is limited to 5000 individually numbered sets at \$50 each. Collectors should add \$2 for each order.

Museum Directions

by Arthur M. Fitts III, Acting Curator

Take a native New Englander, with ancestors whose arrival on American shores dates from the original Mayflower, add a college degree in the history of England and early America, steep in a knowledge of the coins of the seventeenth and eighteenth centuries, and finally blend in ninety-two tastefully selected coins and tokens made available through the thoughtfulness of former ANA President Herbert Bergen, and you have an excellent recipe for mixing business with sheer pleasure, a recipe your museum curator has enjoyed to the fullest for better than a month.

As has been well publicized for some time, the ANA has included among the galleries in its new museum an area devoted to our nation's earliest numismatic history. A plea for more — and better — material for inclusion therein was heard by many, chief among whom was Bergen. The collection which he has provided for display has a strong flavor of history, is rich in variety, is piquant of sentiment, and is rich in opportunity for those who will come to view it.

The Massachusetts Pine Tree issues are here, of large and small planchet; a 1662 Oak Tree twopence represents the smaller denominations. Later Massachusetts issues of 1787-88 there are, too: two cents, including a "horned eagle" variety of '87, and a 1787 half cent.

1652 Pine Tree shilling, small planchet.

Other states are well represented. Vermont has three varieties (Ryder 2, 6 and 17); New York finds three types: a figure left, a figure right, and a superb IMMUNIS COLUMBIA cent; from Connecticut come six different varieties; and from New Jersey we find another six, one of which, a narrow shield 1786, was believed by Edward Maris to be unique.

1662 Oak Tree twopence

1652 Pine Tree shilling, large planchet

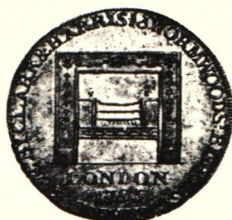

New York 1787 Immunis Columbia

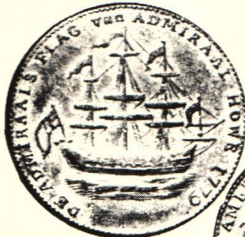

New Jersey St. Patrick farthing, silver

Chalmers shilling

Grate Token, large buttons

Rhode Island Ship token

North Wales halfpenny

There are outstanding examples of the early colonial issues. Two Mark Newby farthings are here, including an outstanding silver specimen. There is an uncirculated Elephant Token; four Rosa Americana pieces from halfpenny to twopence, all in choice condition; two of the popular VOCE POPULI halfpennies, including the well-known VOCE variety; four sous for the French colonies dated 1721, 1722 and 1767 are present; so, too, are six varieties of the populous and notorious Wood's issues of 1722-24.

Among the several examples of early United States pieces is a nearly uncirculated Continental Dollar of the E. G. FECIT variety, in pewter. Less valuable, perhaps, but no less relevant are the Chalmers shilling (with the long worm) and the Rhode Island ship token. The list of ingredients continues with many more familiar names: three Nova Constellatio's; an original Bar cent in extremely fine condition; the North American, Mott and AUCTORI PLEBIS tokens; two uncirculated Talbot, Alum and Lee cents; a Franklin Press token; a Fugio cent; and from Kentucky, a choice cent and a copper proof Myddelton token.

No fewer than seventeen of the ever popular and desirable Washington pieces are at hand. There are six such pieces, all different, from 1783, including a very nice GEORGIUS TRIUMPHO., and a proof restrike of the draped bust with engrailed edge. The 1791 cents include both the large and small eagle types. Of the two 1795 Grate cents, the large button and lettered edge piece in uncirculated condition is preeminent. Here, too, are a small planchet "Success" token and an uncirculated "Liberty and Success" penny. When delivering his collection Bergen related with amusement his accidental discovery that of his then two North Wales halfpennies, one was the especially rare variety with two stars at each side of the harp, rather than the far more common single star variety, which he then had to secure in order to have all three types! Few indeed must be the collectors fortunate enough to have all three, and the ANA, is especially fortunate to have had them made available at the same time.

Finally, there is included a particularly outstanding collection of no less than six different Washington buttons. Among them are two, in brass

and in copper, bearing a GW monogram in the center ringed by thirteen ovals bearing the abbreviations of the original colonies. Others have "GW" in the center with "Long live the President" around, in full and in semi-circle. Still another has a presidential eagle engraved in the center with the legend MARCH THE FOURTH 1789 • MEMORABLE ERA.

The addition of this outstanding assemblage of early American and United States material enables the

ANA to boast of one of the finest such collections extant. The quality of many of the pieces surpasses that pictured in the most widely circulated references. More important, however, is the fact that the bulk of the collection will be on display rather than sequestered in a vault. It will be available for all to see and to enjoy, to ponder and to appreciate, as we celebrate our nation's Bicentennial. We are all most grateful to Herb Bergen for the opportunity and privilege he has given us all.

MEMBERSHIP DRIVE MEDALS MAILED

Proof bronze and sterling silver medals commemorating ANA's 50th anniversary of National Coin Week which were struck by the Franklin Mint and awarded to ANA members who sponsored at least one new member during the month of April, 1974, were mailed recently from ANA Headquarters.

Sponsors of at least one new ANA member were awarded bronze editions and sterling silver specimens went to those sponsors proposing ten or more new members.

Most of the members of the ANA Headquarter's staff spent more than a half day addressing and packaging the 676 bronze and twenty-six silver medals officially awarded.

Final compilations are nearing an end for the awarding and mailing of more bronze medals to numismatic clubs and groups as well as individuals who participated in some manner in promoting numismatics during ANA's 50th anniversary National Coin Week.

Foreground l. to r. — Genie Karlson, ANA librarian; Mary Thompson, membership department; Edward C. Rochette, executive director and members of the ANA headquarters staff at work addressing and packaging medals awarded to sponsors of new members.

Numismatic Vignettes

by Glenn B. Smedley

• Being a persistent reader of *Newsweek*, it pleased me to read "... at the annual convention of the American Numismatic Association in Bal Harbour, Fla." in that magazine's August 26 issue. Of course, the whole theme of the full column was the profit aspect of numismatics, especially relating to the 1907 Indian-head double eagle shown by Paramount, for which it reportedly had turned down an offer of half a million dollars. Bully, but I doubt that such publicity induces many novice or would-be collectors to take up the hobby seriously. But then, the article in *Newsweek* was in its Business and Finance section — it has no Hobby section.

• After becoming an ANA member in 1939, my first convention was in Detroit in 1940, thirty-four years ago. Recently I had occasion to seek information in the 1940 issue of *The Numismatist*, and a few figures in the annual report of officers for that fiscal year-end caught my attention. Maybe you'll be interested to know that the Association's total operating receipts that year were \$17,184 as compared to \$443,950 in the 1973-74 year; that operating expenditures went from \$13,932 to \$426,452 in the same period; and membership increased from 3,176 to 28,021. Why have the dollar figures increased some twenty-eight times while the membership rose only about nine times? That monster called "inflation" is the biggest factor but I wouldn't know how to compile a detailed analysis.

P.S. The register at the convention in the Detroit Leland Hotel showed an

attendance of 164 members and fifty-two guests, compared to over 15,000 total at the Americana Hotel in Bal Harbour this year where I recognized twelve of the 164 members who signed in thirty-four years ago. Don't try to read my mind!

• A deficiency of *The Numismatist*, as I view it, is the lack — or at least inadequacy — of personal items in it. Our Association is not an impersonal business organization but a fraternal one: in the words of our Federal Charter, one of its objects "shall be ... for the particular purpose of bringing the numismatists of America into closer relations with one another, and of promoting friendly feeling for one another ..."

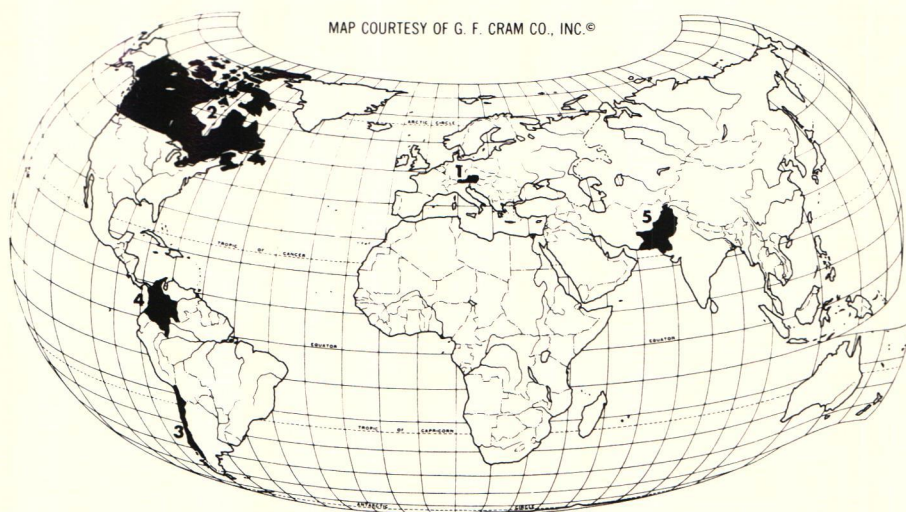

I hasten to state that I do not blame the editor for this particular barrenness of our magazine. He has no roving reporters and no time or expense account for circulating amongst our scattered membership. He can publish only such items as are submitted to him, either directly or indirectly.

Those of you who have copies of *The Numismatist* of eight or ten or more years ago can refer to the old "Notes and Queries" section to see what I mean by personal items. Why this type of news items dried up I cannot say but the practice should be revived. I do not speak for Editor Harris but it is my belief that he would welcome numismatic news of you and your friends. Try it.

Editor's Note — I would welcome such items.

NEW & RECENT ISSUES

By Ernst Kraus, LM 129

It is the important duty of *The Numismatist* to record and illustrate new coins. To accomplish this, ANA members in the United States and abroad are invited to submit new issues to Ernst Kraus, Room 939 (include room number in address), 393 Seventh Ave., New York, N.Y. 10001. Coins will be photographed and returned as soon as possible, and a credit line will be given to anyone assisting.

ANA ELVES INTRODUCE NEW JEWELRY

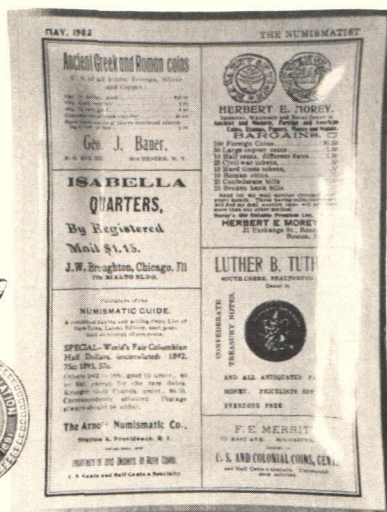

Elves at the ANA Headquarters branch of the North Pole have these gift suggestions to offer Association members this holiday season. Nickel and cloisonne jewelry is now available for use as stocking stuffers and holiday gift exchange ideas.

The nickel-silver jewelry, which features miniature clusters of coins, includes everything from individual charms for the junior member's charm bracelet to tie tacs for dad. The reverse of each piece shows an engraving of the ANA Headquarters' building. The simple but beautiful cloisonne pieces are ANA seals styled in white and blue enamel on gold. Money clips and rope pendants are among the top sellers in this line.

Another new item which Santa hopes to be leaving near pipe racks in many homes this season is *The Numismatist* souvenir ash tray. This rectangular, smoked glass ashtray is a simulated page from the May, 1902, issue of *The Numismatist*.

For prices and information for ordering, see pages 2438 and 2447.

Meet Your ANA Office Staff

George "Pete" Peterson

Question: Who is a Pete-of-all-trades? Answer: He is George "Pete" Peterson; ANA's postman, printer, packer, chauffeur and delivery man.

As Headquarters' postman, Pete handles all the incoming and outgoing mail. Before he can take most items to the post office as many as three or four times a day, he has to pack them. Anyone who has received one of these packages appreciates his expertise at this task. As the office printer, Pete takes charge of producing such booklets as the *Introduction to Numismatics* and the *Dictionary of Numismatic Terms*, both mailed to all new members. Letterhead stationery used by the Headquarters' office, committees and elected officers are also examples of Pete's handiwork. Although the Peterson Limousine and Escort Service doesn't operate daily to pick up visiting ANA dignitaries, Pete's Delivery Service is in constant operation. If there is an emergency, no matter how small, Pete is there to help ... whether it be an immediate need for office supplies or the arrival of office copies of *The Numismatist* at the airport.

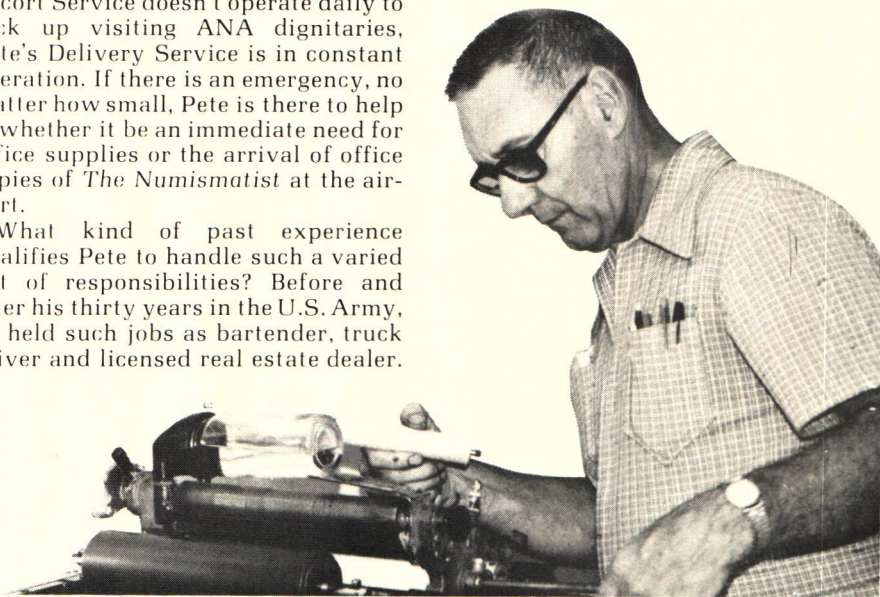

What kind of past experience qualifies Pete to handle such a varied list of responsibilities? Before and after his thirty years in the U.S. Army, he held such jobs as bartender, truck driver and licensed real estate dealer.

While in the Army, Pete also worked in numerous capacities from a stint with the Special Forces in the finance office in Vietnam to a medical corpsman.

Pete and his wife, Ruth, have lived in Colorado for three years. They have two daughters, one at home and one living in Germany.

A man of many talents and many surprises, the Headquarters' staff would all agree that one of his best talents resulted in a delectable coffee cake which he brought to work one morning, fresh from the oven.

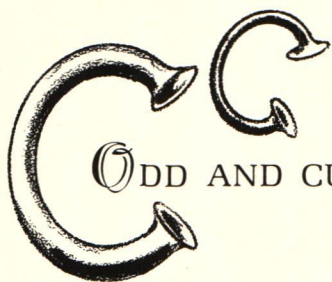

That's right; George "Pete" Peterson: postman, printer, packer, chauffeur, delivery man and . . . chef.

ODD AND CURIOUS

tips for
reading
&
research

Objects used as money, or the odd and curious, represent a fascinating segment of numismatic history.

For obvious reasons, money or its substitutes ideally are made from material that has value in the locality where it is used, is easy to transport and is durable through usage. Some of the primitive moneys were also decorative or magical in concept and were often worn by the owner both for ease of transporting and for safekeeping.

One of the first and most widely used items of money was the various shells, most common of which is the cowrie. Salt, tea, tobacco and cocoa beans are a few of the substances from nature used as a medium of exchange. In Roman times salt was used for payment to the military and brought about the use of the word salary (from the Latin word *salari*). Manufactured items were also utilized: beads, cloth, and metal money in the form of rings, needles, bullets, bracelets, spades, and fish hooks.

Geographical location, availability of materials, desirability, and value all play a part in the story of the odd and curious.

LIBRARY BOOK NEWS REVIEWS

The following books are available from the ANA library on a loan basis. Members wishing to purchase these can quite often acquire them from a dealer more quickly and easily than from a publisher. In other cases, write to the address listed with each book.

Early American Coinage

THE COINS OF NEW JERSEY by Edward Maris. Reprint. 1974. 32 pp. Illus. Hard cover. Quarterman Publications, Inc., 5 S. Union St., Lawrence, MA 01804. \$35.00.

This massive (16" x 10½") reprint captures the unique flavor of the very rare original text, *A Historical Sketch of the Coins of New Jersey, with a Plate*, which was published in 1880. In addition to the text of this classic work of numismatic scholarship, this reprint includes a new foreward written by Walter Breen and dated 1972. It details the facts about the various engravers and minting areas of many die groupings of the coins that are the subject of this book. At the end of the book there is a price guide based on Breen's research of the major auctions from 1968 through 1972 that involved New Jersey coppers. Although there has been a concerted upward price movement for these New Jersey coppers in the last two years, the price guide acts as an excellent indicator of the relative value of the coins of this early American state.

The most fascinating part of this book is the two page plate that illustrates the coins that are described in the text. The plate was reproduced by the publisher on heavy stock paper via the 300-line screen halftone process, and the results are outstanding. The detail on the representations of the very rare 1786 7E and 8F (date above the draw bar) coins, for example, is extremely sharp and clear.

Since Maris' work has been considered definitive for almost one hundred years, and since this reprint con-

tains so much interesting and updated supplemental material, this edition is a valuable and fascinating reference book. — George J. Gerl

Banks and Mining Camps

THE NEVADA "SIXTEEN" NATIONAL BANKS AND THEIR MINING CAMPS by M. Owen Warns. Published by the Society of Paper Money Collectors, 1974. 404 pp., 8½ x 11 in. Illus. Hard cover library binding. M. O. Warns, Treasurer, SPMC, P. O. Box 1840, Milwaukee, WI 53201. \$17.50. (Discount to SPMC members)

This book's title, already long enough, might well have included the words "A Pictorial History of," since well over half of its contents are reproductions of documents, bank notes and related pictures. Merely gathering this documentary material for illustrations was an awesome undertaking.

The founding and development of the sixteen national banks in the State of Nevada makes interesting reading for collectors of paper money (syngraphists) and students of banking history. But how does one tell that story without bringing in the underlying need that brought forth the banks? And that need was primarily the discovery of gold and silver and the resultant mining enterprises.

All such pioneering episodes attract and develop colorful characters, and wondrous — even bizarre — situations and outcomes. Fortunes were made — and lost — in short spans of time. Get the gold and silver out of the ground and to the smelter; never mind the cost — even in lives!

But such operations had to have capital, and a safe depository for the

proceeds. Private bankers tried to fill the need in the early 1860s but hadn't the resources. Development of the Comstock Lode and Brunswick Lode mines, Gold Hill and Silver City mines, all within a few miles of Virginia City, created a need for bigger banking facilities. It was met by the opening of the "Agency Bank of California, Virginia, Nevada," in 1865. Other agency and chartered banks followed in various areas, including the national banks that are the subject of this book.

Many know of the Comstock Lode, of course, but how about the mine near Bullfrog that Charles M. Schwab bought in 1906 for five million and that grossed only about 1.4 million before closing? What became of the town named "McWilliamstown"? What one organization was of the greatest service to the development of the early Nevada mining operations? What engineering project (not a mine) took thirteen years to complete, at a cost of over five million, and was abandoned after only a couple of years of successful operation?

Some will say that this book lacks coherence, or orderliness, just as this review does. Well, perhaps that is one of the book's salient virtues. In spite of the three-page index, you may have to search for a particular bit of information. Don't fret; you will be almost sure to discover many other fascinating stories or accounts along the way. The book is not free of minor imperfections but they do not detract from its overall value.

Maybe one sentence in a letter to Author Warns from Nevada Assistant State Archivist Frederick C. Gale sums it all up, "many unpublished facts and much history can be found within (the book's) many pages." — Glenn S.

First Mint

HISTORY OF THE FIRST UNITED STATES MINT by Frank H. Stewart. 1974. 209 pp. Illus. Hard cover. Quarterman Publications, Inc., 5 South Union Street, Lawrence, MA 01843. \$15.

As the forthcoming Bicentennial generates interest in Colonial and early series of U.S. coins, this republication of Stewart's *History of the First United States Mint* makes important information available about the establishment and minting of the U.S. decimal coinage. The work was first published in 1924 and original copies are rarely encountered. This 224-page, hard-bound and illustrated Quarterman facsimile edition gives the collector access once again to the extensive research of Frank H. Stewart. Included is information about the engravers, assayers, and political figures involved with the early mint as well as extensive accounts and documentation of its operation.

Although of primary interest to the numismatist, this book is also invaluable to those who find the history and economic development of the United States a fascinating field of study.

Austrian Paper

ÖSTERREICH BANKNOTEN UND STAATSPAPIERGELD AB 1759 by Albert Pick & R. Richter. 1974. 80 pp. Illus. Paper cover. Buchdruckerei Erich Proh, i Berlin 26, West Germany. \$4.50.

One does not need to know German to appreciate the value of this specialized work. Interest in the collecting of foreign paper money is certainly on the rise, and the appearance of reference works such as this will do much to further stimulate interest in the field.

The book is simple and concise. Virtually every issue of currency since 1759 is illustrated; all issues are well described, albeit in German; all are priced, in one condition, except for the most recent issues which are readily available at face. Also of considerable value to the student of Austria and her currencies is the five page introduction.

Having travelled in Europe and returned with the usual pockets full of coins and paper money, I was prompted by the appearance of this neat work to rummage through my small hoard of Austrian pfennig, kronen und schilling; while I found no

treasures, it was an interesting and worthwhile exercise. Now organized properly, the collection awaits future editions of the Pick-Richter work. Concise, comprehensive, authoritative, the book is a welcome addition to the corpus of numismatics. — AMF III

Added Mintmarks Appearing on More Common Coins

Collectors of United States coins, already aware that mintmarks commonly have been added to "key" coins, are now finding that many less-rare coins with mintmarks added or removed are being offered for sale, according to the ANA Certification Service in Washington.

In recent weeks, ANACS has noted a marked increase of so-called semi-key coins bearing fraudulent alterations. A 1940 quarter dollar, uncirculated, was found to have an added "D." An 1891 quarter has a false "O" mintmark. Two 1884 silver dollars with soldered-on "S" mintmarks have been examined, and several 1922-D Lincoln cents have been seen on which the "D" has been removed. Half dollars dated 1858 have had their dates altered to appear to be a rare 1853 variety, and mintmarks have been altered or removed on many 19th century half dollars.

Numerous other alterations have been received in 1974, ANACS Director Charles Hoskins noted. Most, of course, are the alterations many collectors have learned to expect: 1909-S V.D.B. cents with added mintmarks (and in some cases

with added initials), 1914-D cents altered from 1944 or bearing false mintmarks, 1892-S and 1893-S silver dollars with added "S's," and altered 1916-D dimes. But other false coins, almost never thought of as the targets of forgers, are arriving at ANACS with increasing frequency.

Collectors commonly buy US and foreign gold coins without giving thought to their authenticity. Most of the gold sold in the United States is genuine, but international counterfeiters are adding to the nation's supply of false gold coins every day. No denomination or type of gold coin appears to have missed the attention of counterfeiters, and US gold dollars, quarter eagles, three dollar gold pieces and Half Eagles appear to have been counterfeited in the largest quantities.

Most coin dealers do everything in their power to avoid selling false coins, and therefore protect their customers most effectively. Some, however, are less knowledgeable and these dealers and their customers both become the victims of the manufacturers of counterfeits.

Information on the ANA Certification Service may be obtained by sending a stamped, self-addressed envelope to ANACS, Box 87, Ben Franklin Station, Washington, D.C. 20044. Collectors are urged to write for mailing instructions and fee schedules before submitting coins for authentication and certification.

OFFICIAL FORD INAUGURAL MEDAL

For the second time in the seventy-three years of official inaugural medals, the design, sculpted by Mico Kaufman of North Tewksbury, Massachusetts, features a three-quarter profile of the President on the obverse. A three-quarter profile was used for the first time on the 1969 Nixon inaugural medal, one of nine other official Presidential inaugural medals struck by Medallion Art Company.

Kaufman also created the official Ford Vice Presidential inaugural medal.

The medals will be struck in the traditional inaugural sizes, a 2 1/2 in. diameter for limited edition specimens and a 2 3/4 in. for the unlimited antique finish bronze edition.

A 24 kt. gold on silver vermeil medal will be limited to 2500 specimens and available at \$100. The .999 fine pure silver edition will be limited to 5000 medals with a proof-quality finish at \$85 and to 7500 silver medals with an antique patina finish at \$70. Insurance, postage and handling on the limited edition medals will be \$1.25 additional.

The larger bronze medals, with an antique finish, will be available at \$9.25 each in an unlimited edition. Insurance, postage and handling on the bronze edition will be 75 cents.

In addition to the individual medals, a matched presentation set of all four medals (gold vermeil, silver proof, antique silver and antique bronze) in a deluxe jeweler's case will be available at \$325. Insurance, postage and handling for the set will be \$3. Only 500 individually numbered sets, numbers 51 through 550, will be available to the public. Individual numbers 1-50 have been reserved for presentations by the inaugural committee.

All purchases of \$150 or more will include a free copy of Richard B. Dusterberg's classic, *The Official Inaugural Medals*. The book, which traces the history of inaugural medals since the first was issued for President McKinley in 1901, will also be available separately at \$7.95.

All royalties from the medal sales will be donated to non-profit organizations to be designated by President Ford.

Collectors desiring medals may order directly from: Inaugural Medal Committee, Suite 500, 1700 Pennsylvania Ave., N.W., Washington, D.C. 20016.

Members of the special inaugural medal committee include ANA members: Sen. Mark O. Hatfield of Oregon; Mrs. Elvira Clain-Stefanelli, curator of numismatics, the Smithsonian Institution; and Richard Dusterberg of Cincinnati, Ohio, inaugural medal authority, author and ANA legal counsel.

WORLD coin news

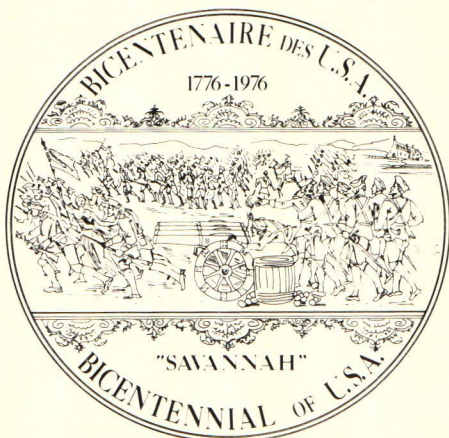

HAITI

U.S. Bicentennial Coin

The Republic of Haiti has announced it will strike the first gold coin honoring the US Bicentennial.

The coins picture a battle scene during the American War of Independence showing Haitian Troops fighting alongside American colonists.

The value of the gold piece will be 1,000-gourdes, or about \$200 US. A silver coin will also be struck and both issues will circulate world-wide at face value.

The gold coin will be legal for Americans to own as of December 31, 1974, under the terms of a bill signed August 14, 1974, by President Gerald Ford, which will permit Americans to own modern gold coins for the first time in forty-two years.

The silver coin is valued at 25 gourdes, or \$5.00 US and measures 30 mm in diameter, about the size of a US half dollar and will contain 8.38 grams of sterling silver.

The gold coin measures 32mm and contains 13.10 grams of 900/1000 gold. Both the gold and silver coin will also be struck in a special proof finish version for collectors.

The coins will be distributed world-wide on an exclusive basis by the Italcambio Group International which has US Offices at 1470 N.E. 129th St., N. Miami, Florida. The group distributes gold and silver coin of the realm for some twenty-three sovereign countries and has offices and/or mints in Milan, Paris, Frankfurt, Caracas and Chiasso, Switzerland.

ENGLAND

24 Countries to Participate in Wildlife Coin Collection

A collector's series of silver and gold coins engraved with endangered species of wild animals will be sold in limited editions beginning in September, 1974, by Spink & Son Ltd. of Longon. The series is officially named the Conservation Coin Collection.

This unprecedented numismatic cooperation involves twenty-four governments who were invited to strike special currency issues by the World Wildlife Fund (WWF) and the International Union for Conservation of Nature and Natural Resources (IUCN). The coins will be struck by the Royal Mint. Spink & Son Ltd., a 308 year-old London-based firm, has been appointed numismatic advisors and distributors.

Each country will issue one gold and two silver coins. The design of the coins will feature three species of wild animals which are either in danger of extinction or particularly characteristic of the country.

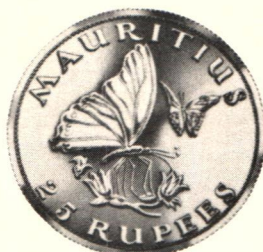

This is the first time in numismatic history that a number of governments have issued legal tender coins which

will be circulated by the monetary authorities of the issuing countries to uniform sizes and weights and in support of the same cause. In addition to those coins circulated, limited numbers of coins will be sold to numismatists.

The coins are being minted both in "proof" condition, a special striking

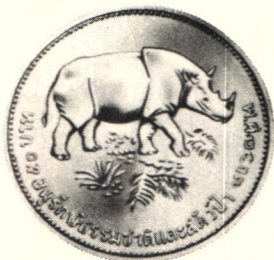

highly prized by numismatists, and in ordinary strikings. World-wide sales to numismatists are limited to 5,000 of each country's gold proof coin and to 100,000 of each denomination of silver proof coins. Additionally, ordinary strikings in uncirculated condition will be available for sale in much larger numbers.

Nepal

Tanzania

Thailand

Each country's gold coin is 34 mm in diameter and contains 33.4 grams of .900 fine gold — the same size and weight as the U S \$20 gold piece. The larger silver coin is 42mm in diameter, and the smaller 38.61mm, the size of an

English crown. Proof strikings of these are from sterling silver (.925 fine) and weigh 35 grams and 28.28 grams respectively. Selling prices will be determined by bullion values prevailing when the coins are struck.

All proceeds from the sales to collectors will be shared by the participating states, WWF, and IUCN, and will be used for conservation programs. The issuing states will use their revenue for such priorities as the establishment of national parks and other reserves, staff training, public education and research into management practices for better conservation. WWF and IUCN will use their portion of the proceeds to strengthen their future conservation programs around the world.

Participating countries will release their coins for sale at two-month intervals over a four-year period. Orders were taken starting in September, 1974, for the first six countries issuing coins in the collection: Indonesia, Tanzania, Costa Rica, Nepal, Thailand, and Mauritius. There will be an annual announcement of six further countries.

Notes & Queries

First Coinvestors to Issue French Medallion Art

The Republic of France, for the first time in its history, will release contents of the archives of its mint, Monnaie et Médailles, for worldwide distribution. The mint, a corporation wholly owned by the Government of France, has granted the marketing rights to all medallion art contained in its archives to an American firm, the International Collectors Société des Monnaie et Médailles, Ltd. The arrangement is exclusive throughout the world, including France, Pierre Dehay, director of the mint, stated.

The International Collectors Société des Monnaie et Médailles is a newly formed subsidiary of First Coinvestors, Inc., Albertson, New York. First Coinvestors, a publicly owned company, markets rare coins, medallion art and other collectibles to collectors and investors. The company pioneered the marketing of rare coins through subscription programs, and is the largest firm in its field.

Marquis Bernard Poisson de Menar has been appointed president of the Société, which is headquartered in Paris and New York.

The Société plans to select for marketing about five medals each year, M. de Menar said. The company

has the right to choose from among thousands of original dies presently in the archives. It may, in addition, recommend the design of new pieces or call upon the mint to produce revised editions of old pieces.

Estimates indicate the archives contain the original dies for about 100,000 medals, marking ten centuries of French and world history.

To inaugurate the arrangement, the Mint will reproduce one of the most memorable and distinguished medals in modern history, the famed Libertas Americana. Conceived and commissioned by Benjamin Franklin and executed by famed French artist and engraver Augustin Dupre, the medal commemorates the surrender of the two British armies at Saratoga and Yorktown and the French support of the American Revolution.

Only a very small number of the original medals are known still to be in existence. The new edition, enlarged to three inches in diameter, will be struck in 99% silver. The obverse will state the date 1776; the reverse, 1776. Present plans call for the Libertas Americana to become available for sale late this year. Further details are available from First Coinvestors, 200 I.U. Willets Road, Albertson, New York 11507.

Gold at Fort Knox Inspected

Mrs. Mary Brooks, Director of the Mint, stated that the inspection by members of Congress on September 23, 1974, of U. S. gold stocks stored at the Fort Knox (Ky.) Bullion Depository marks a unique departure from the long standing and rigidly enforced policy of absolutely no visitors.

"On April 28, 1943, President Franklin D. Roosevelt inspected the Bullion Depository," Mrs. Brooks said. "His visit was the one and only time a gold vault was opened for inspection for anyone other than authorized personnel."

Treasury Secretary William E. Simon issued the invitation to Congressmen to inspect the gold at Fort Knox. By also inviting the press to witness the Congressional inspection, the Mint is clearing away the cobwebs and re-assuring the public that their gold is intact and safe. For the first time photographing is being permitted inside the Depository."

After the Congressional inspection, the Bullion Depository was once again closed to visitors.

Following the inspections a special settlement (audit) was scheduled to begin and at its conclusion a report on the audit will be issued.

The audit will be performed by a committee of auditors from the U. S. General Accounting Office (GAO) and the Department of the Treasury. The auditors from the Treasury will be drawn from the Office of the Secretary, the Bureau of Government Financial Operations, the U. S. Customs Service, and the Bureau of the Mint. In addition, the committee will include technicians from the Bureau of the Mint who are trained in assaying and weighing gold bullion.

The monetary gold stock of the United States totals 276.0 million fine troy ounces valued at \$11.7 billion at the official rate of \$42.2222 per fine troy ounce, and is stored in various federal depositories (table attached), the largest of which is at Fort Knox,

Kentucky. 147.4 million fine troy ounces, valued at \$6.2 billion, is stored in thirteen vault compartments at the Fort Knox Bullion Depository.

The Collector's Showcase

The Collector's Showcase has many features of interest to the collector. Crystal clear plexiglas windows, each 7" x 10", encase the 4-sides. Windows slide in from the top in tracks on aluminum corner posts to protect the collection and it revolves on ball-bearings for easy viewing. Each showcase comes with four interchangeable display panels, two panels have six shelves to each panel for coins and medals up to 1 1/2" diameter, dollars, and horizontal ingots. The other two panels have five shelves to each panel to give more display height to accommodate up to 2 1/4" round medals, crowns, and vertical ingots. Corner posts are brushed aluminum in your choice of gold or silver finishes. Top and base are American black walnut with a rich polished finish. The Collector's Showcase (patents pending) is priced at \$35.00, postpaid. (New Jersey residents add 5% state tax.) Write: Collectors Unlimited, Dept. 206., P. O. McDonald Wins 1974 Top CNA Award

William H. McDonald, Willowdale, Ontario, was presented with the 1974 J. Douglas Ferguson Award at the annual convention of the Canadian Numismatic Association held in Hamilton, Ontario, August, 1974. This award, which is the highest award of the Canadian Numismatic Association, is in the form of a 24 carat gold medal accompanied by a framed citation. It is presented annually to the living numismatist who has contributed most to the advancement of the science of numismatics in Canada, either through research, writing, publishing or in any other manner. The award was established in 1969 by J. Douglas Ferguson, Honorary President of the Canadian Numismatic Association. The magnificent gold medal was designed by the internationally known artist A. Marchetti of Montreal.

Odd and Curious Club Formed

The objectives of a new club, the International Primitive Money Club, are to encourage and promote the collecting, preserving and researching of primitive odd and curious money and related subjects. The new group, founded by Neil Kent Becker of Great Neck, New York, plans to make a correspondence roster available to the collector and researcher of primitive money.

During August, the club published its first journal of six pages which included a membership listing of its fifty-one members. A second journal is being prepared for publication. Interested collectors are invited to apply for membership. For further details write: Neil Kent Becker, 6 Soundview Lane, Great Neck, New York 11024.

New Exhibit Techniques

Susan Bisailon, Manager of National Bank of Detroit's Money Museum, has announced the opening of a new exhibit titled, "The Colorful Currency of the World."

George D. Hatie, Vice-President of the American Numismatic Association and Susan Bisailon, Manager of National Bank of Detroit's Money Museum, view the new Money Museum exhibit entitled, "The Colorful Currency of the World."

"The exhibit represents a new approach to money museum displays," explains Mrs. Bisailon, "in which we experiment with lighting effects and backgrounds to highlight the unique features of the artifacts in the museum's collection."

The exhibit was designed to dramatize the watermark characteristics found in many foreign banknotes. By mounting the watermarked currency on translucent plexiglas boxes that illuminate with the press of a button, visitors can see the beautiful watermark designs that are not visible under normal lighting. Currency from a number of countries is featured including the spectacular watermarked notes of Africa.

The display is the first in a series planned at the museum using such experimental exhibit techniques.

The Money Museum is located at National Bank of Detroit's Main Office, 611 Woodward, Detroit. Museum hours are 9 a.m. to 5 p.m., Monday through Friday.

Krause Announces FM Guidebook

A comprehensive *Guidebook of Franklin Mint Issues* has been announced as the latest addition to Krause Publications numismatic catalog line.

Publisher Chester L. Krause stated that the new guidebook "will provide collectors and dealers with accurate

answers to the two questions most commonly asked about any numismatic item: How many pieces were struck? How much is it worth?"

Co-authored by Krause and Virginia Culver, past president of the Token and Medal Society and current president of the ANA, the guidebook will be available through most coin shops and dealers handling numismatic references, or may be purchased directly from the publisher.

All of the more than 8,000 numismatic issues produced by The Franklin Mint from its establishment in 1965 through 1973 will be cataloged in this comprehensive guide.

Independently assembled by Krause Publications under Krause's direction, with introductory sections and historical data by Culver, the guide includes detailed information on each issue, including the issue price of each individual piece along with their current market value as determined by a panel of more than a dozen professional dealers and collectors from across the country.

In addition, the volume also features both subject and sculptor indexes of the listings and will be liberally illustrated.

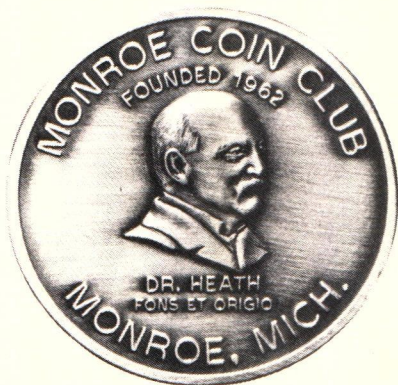

The *Guidebook of Franklin Mint Issues* will sell for \$6.50. Collectors who are unable to purchase it in their local areas will be able to order the volume directly from the publisher, Krause Publications, Inc., Iola, Wisconsin, 54945.

The Panamerican — A Coin for the Americas

About forty years ago in a Brazilian numismatic meeting, a piece of news published in that day's newspaper was discussed concerning the building of a Panamerican highway connecting Rio de Janeiro to the city of Nome, Alaska. At the time it was suggested that there should also be a common money system to all American countries having free circulation among all

MONROE COIN CLUB HONORS DR. HEATH

The Monroe Coin Club of Monroe, Michigan — the birthplace of Dr. George F. Heath, founder of the ANA — has issued a medal in his honor.

A portrait of Dr. Heath is featured on the obverse along with the club name, city, and the motto, *FONS ET ORIGIO*, or *FROM THE ORIGIN*. The reverse features the many important dates and accomplishments of Dr. Heath's life.

Medals were struck in silver and limited to one hundred for club members only. A bronze version was struck and limited to 1500 for public sale at \$4.00 each. Orders for bronze specimens should be directed: Monroe Coin Club, P.O. Box 44, Monroe, MI 48161.

countries with no restrictions whatsoever and favoring the tourist and commercial interchange.

Such money would be entirely made of metal, based on gold and silver, having uniform weights. Thus, for example, a coin weighing 50 grams in gold (one gram of gold being equal to one Panamerican), identical to the Peruvian 100 soles, would be worth 50 Panamericans. Identical to twenty American dollars and 100 Chilean pesos, they would be thirty and twenty Panamericans, respectively. The same would apply to silver coins. Thus, a 25 gram coin would be the unit (one Panamerican), etc.

The idea, transformed into an article, was published in several newspapers and magazines. But, like the Universal Coin (Utopian, maybe), it fell into oblivion. Today, however, when the highway has become a reality, with thousands of trucks and buses transporting cargo and passengers through all countries in a overwhelming movement, the idea reappears of that common coin — the Panamerican.

It would be enough to present the coin at a bank or an exchange office to have it converted into the national currency of each country at the present exchange rate, since there is a certain uniformity in the price of that metal all over the world.

It would use national personalities, deeds and engravings with the effigies of Tiradentes, Lincoln, Marti, Juarez, San Martin, Bolivar, Tupac Amaruc, and others who fought for the liberty and independence of the Americas.

It would also bring to American numismatics a great development by helping this important branch of archaeology to remake the American history through these coins.

Stubborn as they are, numismatists are considered to be thickheaded people who never give up and keep hammering a point when they believe they have the right idea.

Who knows, perhaps the suggestion has been considered since we are most certain of one thing — sooner or later the Panamerican, a common money to all American countries, shall prevail.

FAO Coins- Program Presented

Virginia Culver, ANA president, and Edward C. Rochette, ANA executive director, appeared before the House Committee on Agriculture and the Senate Committee on Agriculture and Forestry, September 17, 1974, on behalf of the United Nations' Food and Agricultural Organization (FAO) coin program.

The committees heard facts relating to the more than fifty nation's around the world that have issued coins with the FAO theme "Produce more Food," since the United Nation's suggested the idea in 1968 as a way to focus attention on the need for increased food supplies. Now, more than 600 million FAO themed coins circulate daily as a reminder of this pressing need.

Following appearances by Culver and Rochette, special framed collections of representative coins of the

FAO coin series were presented to the committee in special ceremonies by Virginia Culver on behalf of the FAO.

Virginia Culver presents FAO coin sets to W. R. Poague (center), Texas chairman of the House Committee on Agriculture. Rep. William Sampler is at right. At left are Edward C. Rochette, ANA executive director, and Eldridge Jones, ANA governor.

George T. Lunsford
ANA 40797

A member of the ANA since May 1, 1961, George T. Lunsford, 66, died on August 22, 1974, following a lingering illness in Greenville, South Carolina.

Lunsford served as the first president of the Blue Ridge Numismatic Association and was charter life member 36. He was formerly owner and operator of the Greenville Coin Shop and was a member of the Southeastern Numismatic Exchange.

Widely known also as an antique clock collector and dealer, Lunsford was a member of the American Legion, a long time shriner and member of the Marching Patrol. Full masonic rites were conducted at the graveside.

Those wishing to make donations in his memory can do so by contributing to the ANA library. — RE

Ernest Weidhaas
ANA 11589

Ernest Weidhaas, Pelham, New York, died on August 21 at the age of 86. He had been hospitalized since early 1974.

A member since August 1, 1945, Weidhaas was best known by ANA members as the author of "New York World's Fair Medals, 1939-1940." The third and last addendum was completed and published in *The Numismatist*, Oct., 1974. His work is regarded as the standard reference on the subject and earned him the Heath Literary Award in 1967.

Weidhaas was president of the Westchester County Coin Club in 1945, 1946, and 1947, the only person ever to have held this office for three consecutive terms.

He was married to Cecilia E. Feist in 1914 and a realtor in New York City prior to his retirement in 1938. Early in life he was interested in natural history, and this, together with an instinctive feeling for the arts, developed to the extent of his being recognized as an amateur authority on the subjects of mineralogy and several phases of oriental art, as well as numismatics.

Weidhaas was, in point of service, the oldest member of the New York Mineralogical Club, having been a member since 1918. A contemporary of the late George F. Kunz, president of Tiffany, he served on numerous committees greeting notables in the field of science including Madam Curie on her visit to the United States. He was also a charter member of the Mineral Society of America, and a past president of the Westchester (New York) Mineral and Gem Society.

Weidhaas also held membership in Constitution Lodge, F & AM, of which he was a master in 1916. He was a director of the New York Anti-vivisection Society. The Legion Against Vivisection, and several animal protection societies.

Weidhaas was a lecturer in his fields, giving talks to students at universities, mineralogical societies, and natural history organizations.

Surviving are his wife, a son, a daughter, eight grandchildren and a great-granddaughter.

Ernest also was the author of a collection of poems which is now being published posthumously. One of his favorites was called, "Nearing the End of the Road". — New York Times, ED.

Fakes or Fantasy?

I do not know whether anyone in our numismatic society will agree with my comments about Mr. Hancock's article on Chinese coins which appeared in *The Numismatist*, July, 1974, issue. My comments cover only two of the coins which he features as designed to cheat the collector. They are Kann No. B29 Tael 1903, Sechuen Province, and Kann No. B84 Ration Tael, Sinkiang Province.

Page 466 of Kann's catalog warns collectors against "Chinese Fantasy" coins. Only a novice collector without the knowledge that E. Kann's book *Illustrated Catalog of Chinese Coins* is the standard guide to collecting Chinese coins will be taken by a sharpie.

Advanced collectors of this series are very much aware of the scarcity of these beautifully designed coins and of what reference book to use. When these coins are offered for sale by many of the larger auction houses, they are advertised as Fantasies with catalog numbers listed. This is surely not the way a dealer would cheat a collector, is it?

This brings me to the point which I would like to bring out. My catalog library shows that Mr. Schulman has auctioned Kann B29 in his sale of March 19, 20 & 21, 1968. Mr. Schulman is one of the most learned and respected names in numismatics today, and I consider his explanation about this series to be correct. The following is taken from page 89 of his sale which was conducted at C.O.I.N. on June 18, 19, 20, 1971:

FANTASY PIECES

"For many years we have admired Kann's outstanding book on Chinese coins, however, we have felt that the word 'Fantasy' was really not the proper word to describe these limited issue 'coins'. In our opinion, we believe that these are commemorative coins (or medals) struck for presentation purposes, or struck by authorized firms on special occasions."

There are many schools of thought about the Chinese Fantasy series. You, the collector, be the judge.

Mr. Hancock helped establish the ANACS, which is doing a fine job in the detection of counterfeits. Through his articles identifying forgeries which might fool the average collector, we must give him credit for doing a great and sometimes unrewarding job. I consider Mr. Hancock a good friend and hope he will remain so for many years to come, but differences of opinion do exist on some numismatic items and I feel that they should be presented.

CENTURY OLD NOTES

GOLD is money the world over and paper is not money the world over. Think it all over, with statements that it is, and still it is not money. The reason is plain. Paper has no inherent value. There is enough more where the last lot came from, and no man knows how much of it will be forthcoming. —
American Journal of Numismatics, October, 1874.

Now, here's how dealers can purchase Conservation Coins in lots specially reserved for you.

Since the recent announcement of the history-making program of cooperative mintage of legal-tender proof and uncirculated gold and silver coins by 24 nations, in behalf of their endangered wildlife, the international Conservation Coin Collection has enjoyed an astonishing reception from the public and trade alike.

The extraordinary beauty of these coins, the magnificent care with which they are being minted by the Royal Mint of Great Britain, the severely limited quantities of production, and the historic circumstances under which they are being issued, have alerted collectors and dealers alike to their remarkable investment potential.

And especially now that the gold coins in the series may legally be sold to Americans, beginning January 1, 1975, the volume of orders from the trade has made it necessary for us to create a special facility for dealers, to ensure the most prompt and efficient handling of your orders.

Beginning immediately, dealers are invited to contact F. S. Werner, 955 Willis Avenue, Albertson, New York 11507. Or phone 516-294-0212 or telex 961-426—or use the coupon below. This service is limited to the trade only, for minimum orders of twenty coins.

**You Are Invited To
Join In A Unique
Centennial Tribute
To
SIR WINSTON
CHURCHILL**

Cook Islands

Turks and Caicos Islands

Cayman Islands

These three elegant, Proof-quality silver coins will be struck as part of a world-wide commemoration of the Winston Churchill Centenary.

The 100th Anniversary of Sir Winston Churchill's birth, November 30, 1974, will be marked by worldwide tributes to his memory — including the issuing of three new British commonwealth coins. Churchill, the man who led the British nation in "its most deadly danger and its finest hour", will be portrayed on each coin.

The three centenary Proof coins, pictured above, include a Cayman Islands \$25 silver coin, a Turks and Caicos Islands 20 Crown silver coin and Cook Islands \$50 silver coin. All three coins will be minted from solid sterling silver, an increasing rarity in present day coinage. Collectors' items of superb quality and exquisite beauty, the Churchill coins are also potentially superior investments.

Special 24 karat *gilt* silver \$50 coins will also be issued by the Cook Islands. *These coins will be virtually indistinguishable in appearance from solid gold.* Planned for official presentation purposes, the beautiful *gilt* silver coins will only be available in a very limited edition to individual subscribers.

Unfortunately, due to the extreme care and time involved in minting the Cook Islands coins, only 2,500 Cook Islands special *gilt* silver Proof \$50 coins, priced at \$225.00 each, and 10,000 of the Proof \$50 silver coins, priced at \$175.00 each, *will ever be minted.* Subscriptions

are limited to one gilt silver \$50 and five silver \$50 coins per order. Once these special mintage limits have been reached, no further reservations will be accepted. Thus, it is of the utmost importance that orders for the Cook Islands Churchill Centenary coins be placed at your earliest possible convenience.

Prominent Sculptors Design Churchill Centenary Coins

The Cook Islands \$50 coin was designed by the eminent sculptor, James M. Berry of Wellington, New Zealand, and the Turks and Caicos and Cayman Islands coins were designed by the distinguished British sculptor, Michael Rizello.

All three Churchill Centenary coins will be legal tender, and will circulate in their respective countries. The Turks and Caicos coin will feature a lettered edge with the inscription "Redeemable at Turks and Caicos for U.S. currency". This means that the 20 Crown silver coin may be converted directly into \$20 in United States dollars without exchange premium on the islands — **the only coin in the world capable of making this unique claim!**

A Limited Edition Two-Coin Proof Set

The Turks and Caicos Islands and the Cayman Islands Churchill Centenary coins may be purchased singly — and, since both coins will be struck at the Royal Canadian Mint, an unusual BI-NATIONAL Two-coin Proof Set will also be offered. The two-coin Proof Sets are priced at \$75.00 each, with a limit of two sets per order. Packaged in an elegant presentation case, the unique Proof Sets may be beautifully and proudly displayed.

Single Cayman Islands Proof coins, priced at \$45.00, and Turks and Caicos Proof coins, priced at \$30.00, are limited to five of each coin per order. Paramount International Coin Corporation has been authorized to accept reservations for these two coins from the general public only until November 30, 1974, the 100th Anniversary of Sir Winston Churchill's birth. Thereafter, only orders from Paramount's own established customers can be accepted.

How To Enter Your Reservation

An official reservation form is attached for your ordering convenience. Please pay special notice to the ordering limits and cutoff dates for each coin, and place your reservation today. Refunds will be promptly returned on all orders which cannot be filled.

Uncirculated Churchill Centenary Coins will be made available at a later date.

James F. Ruddy and Q. David Bowers tell you . . .

When Great Collections Are Sold . . . The American Auction Association Sells Them!

One of the highlights of 1973 was our sale of the remarkable Terrell Collection. Important United States and world coins were offered for sale, and price record after price record was broken. Yes, when great collections are sold, the American Auction Association sells them!

The Terrell Collection sale is now just a fond memory. But, more history-making sales are on their way! You can consign your coins NOW for our fabulous next sale! It will be one of the most important numismatic events of our time!

"WHAT OUR CONSIGNORS SAY"

When we sold the Armand Champa Collection at public sale, Mr. Champa, one of America's most prominent numismatists, was so pleased with the results that he did something unprecedented in the annals of numismatic auctions: completely unsolicited by us he placed large advertisements in "The Numismatist" and other leading publications to thank us for our service:

"Thank you Dave Bowers and Jim Ruddy for the excellent handling of my coins through you American Auction Association. I was very well pleased with your wonderful descriptions of my coins, especially the patterns. The prices realized for my coins NEARLY DOUBLED the offers I received from other dealers."

We think that the comment that our auction sale results NEARLY DOUBLED the other offers received is especially significant.

Recently another consignor, Dr. Bernard Bressler, of the Duke University Medical Center (Durham, North Carolina), wrote to say:

"I am most appreciative of your sending me the check and the results from your last auction. I am MORE THAN SATISFIED with the proceeds. I want to congratulate you on the BEAUTIFUL CATALOGUE and the BEAUTIFUL RESULTS."

Recently we sold the fabulous collection of United States and world coins and paper money formed over a long period of years by MR. MATT ROTHERT, DISTINGUISHED PAST PRESIDENT OF THE AMERICAN NUMISMATIC ASSOCIATION. Mr. Rothert's accomplishments include receiving nearly every major numismatic award, including the American Numismatic Association's highest award, the Farran Zerbe Award, in 1973.

We consider it significant that Mr. Rothert chose us to auction his famous collection. Equally important, once the sale took place, Mr. Rothert expressed his pleasure with our cataloguing of his material and with the results obtained. "I want you to know that I was WELL PLEASED with my recent auction." Many, many price records were shattered. The Matt Rothert Collection sale will live forever in numismatic history.

And, many, many similar unsolicited comments are in our files. What we have done for others, we can do for you!

CONSIGNMENTS WANTED: LARGE AND SMALL. If you have several thousand dollars or more worth of choice and rare U.S. coins or coins of the world, contact us today about including them in our next sale. Already a number of choice consignments have been received, thus assuring that our next sale will be one of the most important numismatic events of our time.

NOW ACCEPTING CONSIGNMENTS —for our next sale—

We are now accepting consignments for our fabulous auction sale to be held in February. This sale will feature many outstanding United States coins and coins of the world—including scarcities and rarities. It is the IDEAL PLACE to offer your individual rare coins, sets, or your collection.

CONTACT US NOW! Considering the sale of your coins? Write or telephone James F. Ruddy or Q. David Bowers and we will discuss our convenient arrangements with you. Or, if you prefer, just drop us a note asking for auction information. Give a brief description (a few sentences will do) of your coins. We will send you complete details by return mail.

"THINKING OF SELLING? Make "the right decision" and consign your coins to the AMERICAN AUCTION ASSOCIATION division of BOWERS AND RUDDY GALLERIES, INC. What we have done for others we will do for you.

James F. Ruddy and Q. David Bowers tell you . . .

HOW TO GET THE BEST PRICE WHEN YOU SELL YOUR COINS!

Considering the sale of your choice coins, sets, or your entire collection? James F. Ruddy and Q. David Bowers offer you the finest auction service in the rare coin field today. Consider the advantages that a combined public and mail bid auction by our American Auction Association division offers you:

THE BEST POSSIBLE PRICE for your coins will be yours with an American Auction Association sale. Public attendance plus spirited mail bidding from our mailing list of the most active buyers in numismatics will combine to produce the **BEST POSSIBLE PRICE** for your coins—the best **RESULTS** available in numismatics today.

EXPERT CATALOGUING by James F. Ruddy, Q. David Bowers, and the other professional numismatists on the large staff of Bowers and Ruddy Galleries is yours. You get the experience of our having handled untold millions of dollars worth of choice United States coins and coins of the world—including many of the finest collections sold in American and Europe in recent decades.

A **BEAUTIFUL CATALOGUE** will highlight your collection. Important pieces will be illustrated with detailed photographs. The illustrations, layout, typography, and descriptions of the coins will make the catalogue featuring your collection a standard reference for years to come. In fact, our auction catalogues of the past have become valuable collectors' items in themselves! (Note: If you prefer—as many sellers do—we will keep your identity strictly confidential.) Your collection will be offered to its best advantage. If you've seen an **AMERICAN AUCTION ASSOCIATION** catalogue you know that there are no "shortcuts" with photography, quality, or coin descriptions. You get the **BEST** when you come here.

CASH ADVANCES AVAILABLE. Generous cash advances toward the amount realized are available. In this way you can have immediate cash right now.

PLUS THESE OTHER ADVANTAGES: Over past decades countless numismatists and museums have made the **RIGHT DECISION** and have let the **AMERICAN AUCTION ASSOCIATION** (division of Bowers and Ruddy Galleries) sell their coins. The Collier Collection, the Fairfield Collection, the Fuller Collection, the Gilroy Collection, the Westwood Collection, the Monroe Collection, the Wilmette Collection, the Armand Champa Collection, the Robert Marks Collection, the Terrell Collection, the Dr. W. E. Caldwell Collection, the George A. Merriweather Collection, and others—the list is virtually endless—have all been handled by us to the complete satisfaction of their owners. A recent highlight was our sale of the fabulous collection assembled over a long period of years by Mr. Matt Rothert, distinguished past president of the American Numismatic Association.

REFERENCES: When you sell your coins through the American Auction Association division of Bowers and Ruddy Galleries, Inc. you are doing business with a firm of unquestioned financial and professional reputation. We are Life Members of the American Numismatic Association, are members of the Professional Numismatists Guild (James F. Ruddy is recipient of the P.N.G. Distinguished Service Award; Q. David Bowers is a director of the P.N.G.), the International Association of Professional Numismatists, and other leading organizations.

WHAT WE HAVE DONE FOR OTHERS WE CAN DO FOR YOU! Any way you look at it, we offer you the **BEST WAY TO SELL YOUR COINS**. (1) The results of our sales are proven. Consignors in the past have been **DELIGHTED**. You will be pleased as well. (2) Our commission rates are very competitive and reasonable. (3) An instant cash advance is available. (4) We are accepting consignments **RIGHT NOW** for our next sale. There's no long-term waiting!

We'll Buy Them Back

In the past we have bought back virtually every World Proof Set and World Proof Coin we have ever sold! We have purchased every issue from time-to-time at the same price, or in *most* cases, at a *higher* price. Why? Because we constantly have people requesting past issues of all of our World Proof Sets and single proof coins. We want to fulfill their needs! And because the mintage of a particular proof set or proof coin is exactly equal to the number of orders received prior to a deadline date, the only way we can do that is to buy proof issues from original purchasers. This is one of the many reasons our World Proof Series coins and sets are so popular.

Right now we desperately need and are interested in purchasing the items listed below:

ITEM

WE PAY YOU

1971 Panama 20 Balboa Proof Coin	\$61.00
1972 Panama 20 Balboa Proof Coin	52.00
1973 Panama 20 Balboa Proof Coin	47.00
1974 Panama 20 Balboa Proof Coin	44.00
1973 Barbados Proof Set	43.00
1970 Cook Islands \$1 Proof Coin	65.00
1969 India Proof Set	23.00
1970 India Proof Set	24.00
1971 Jamaica 6-piece Proof Set	50.00
1971 Trinidad-Tobago 6-piece Proof Set	175.00

If you have any of the listed proof sets or proof coins, clip and fill out the coupon below and send the coins to us by registered mail. We will mail your check to you immediately. Of course, we must insist that the coins be in their original mint sealed package.

I would like to sell Paramount the following coins:

A GREAT AMERICAN
CLASSIC TRULY
A MUSEUM PIECE

We think this coin is every bit as good as the 1913 nickel or the 1804 dollar. We would not be surprised to see this very same 1838-O Half Dollar sell in the very near future for a \$250,000.00 price. Why not?

Our price is very cheap only \$100,000.00

The Treasury of Biblical Wildlife.

**24 sculptures of Holy Land animals
in ingots of solid sterling silver.**

Valid Only if Postmarked by November 30, 1974

Once, the birds, the beasts and the reptiles dwelt in profusion in the land of the Bible. Centuries of neglect and environmental change have severely reduced their numbers. *By owning this unique collection, you help restore and protect them.*

Bible Animals of the Series

The Persian Onager, Nubian Ibex, Mesopotamian Fallow Deer, Wild Ox, Syrian Bear, Arabian Oryx, Asiatic Lion, Indian Wolf, Rock Hyrax, Roe Deer, Sheep, Wild Boar, Dorcas Gazelle, Camel, Fox, Stork, Cheetah, Crocodile, Arabian Horse, Ostrich, Serpent, Saluki Dog, White Ass, and Dove.

24 Original Works of Art

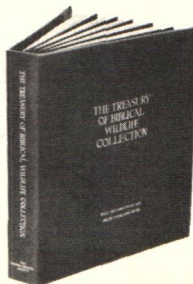

This unique collection of 24 individual works of art in solid sterling silver was created exclusively for The Biblical Wildlife Society by Dora de Pédery-Hunt, member of the Royal Canadian Academy of Art. Her sensitive and inspirational sculpture is part of the collections of Canada's National Gallery, the Belgian Royal Cabinet of Medals, the Dutch Royal Coin Cabinet, and the Smithsonian Institution.

Produced by The Franklin Mint

The Franklin Mint, world's foremost private mint, was selected for the production of these solid sterling silver ingots. Each proof quality ingot contains 750 grains of silver, 1.6 troy

Dora de Pédery-Hunt

A deluxe collector's album with parchment pages of biblical texts referring to the animals of the bible will be provided at no additional charge to each subscriber to The Treasury of Biblical Wildlife.

ounces. Each ingot is hallmarked and edge-numbered.

Limited Edition

The Treasury of Biblical Wildlife Collection is available to advance subscribers only. Sets are limited to one per subscriber. The total number of sets will be limited to the number of advance subscriptions received or postmarked by November 30, 1974. After the ingots have been struck for each subscriber the dies will be destroyed to assure the rarity of the collection.

The 24 ingots will be issued at the rate of one ingot per month at a cost of \$42 each. This price will be guaranteed to each subscriber for the entire series no matter how high the price of silver.

The Biblical Wildlife Society contribution to the protection and restoration of biblical wildlife is directed through the Holy Land Conservation Fund Inc., N. Y.

THE RESULTS SPEAK FOR THEMSELVES

Sell to us direct,
or let us auction your coins.
Either way, you make more
when you do business
with SUPERIOR.

SUPERIOR WILL PAY MORE FOR YOUR COIN COLLECTION THAN ANY OTHER DEALER

The serious looking people in the photographs above are collectors, investors, and even dealers who are attending an actual SUPERIOR STAMP & COIN COMPANY auction. They have a *proven history of paying record breaking prices* for rare coins.

4. WELL-ATTENDED AUCTIONS

We treat our public (both buyers and sellers) like royalty. Buyers come from every state in the union and many foreign countries. If necessary, we make hotel arrangements for them. We pleasantly, and patiently allow them to view every lot that interests them. Our auctions are a looked-forward to occasion

In 1973 a silver coin at just such an auction produced a record breaking price of \$110,000.00. A twenty dollar gold piece was bid up to \$60,000.00, for yet another record. How does this help you? Simple. The more we get ... the more you get ... and SUPERIOR auctions get more.

Coins consigned to, or purchased by SUPERIOR bring to the consignor, or seller prices far greater than when sold to other dealers. And there are good reasons why doing business with SUPERIOR means hundreds, or even thousands of more dollars in your pocket.

Such as:

1. TIMING

We advise you as to market trends. We have our thumb on the pulse beat of the economy. We know the most opportune moment to publicize and place your coins on the market. We don't conduct spur-of-the-moment auctions. They are well-planned, and well thought out to assure you of extra dollars by selling your coins during peak periods. *Our timed sales mean more dollars for you when you sell or consign your coins to SUPERIOR.*

2. EXPERT CATALOGING

Our catalogs are the envy of our profession. They have literally won awards, both for the professional manner in which they are written and for the graphic reproduction of almost 100% of the coins to be sold. They are printed on the best of papers. No expense is spared in catalog production. As a result, mail bidders can bid with confidence and assurity, based solely on our descriptions and photos. We will be glad to send prospective sellers samples of past catalogs. *These deluxe catalogs mean more dollars for you when you sell or consign your coins to SUPERIOR.*

3. LARGE AD BUDGETS

We have found that it pays to advertise. Months before an impending auction our full-page ad campaign is launched. Numismatic publications, financial publications, and all past buyers are alerted to the fact that SUPERIOR is conducting another auction. Mailing lists of Doctors, business and professional men, collectors and investors are purchased to augment over 10,000 proven names already on our books from past auctions. *Our large ad budget means more dollars for you when you sell or consign your coins to SUPERIOR.*

for old friends to meet and new acquaintances to be made. There is hardly ever an empty chair at a SUPERIOR auction. And they have all come for one express purpose ... to bid "top dollar" for your coins. *Our well-attended auctions mean more dollars for you when you sell or consign your coins to SUPERIOR.*

5. WE ARE PROFESSIONALS

You will immediately be instilled with a feeling of confidence and well-being when you sell or consign to SUPERIOR. We are professionals, and we know the coin business. Since rare coins are only available from collectors, and since it's a sellers market, SUPERIOR has to make you a "better offer". The last thing we want is for you to sell to a competitor. We won't let this happen. *The same professionalism enters the picture when it's time to sell, this means more dollars for you when you sell or consign your coins to SUPERIOR.*

6. PURCHASING POWER

When we purchase your collection you will receive *immediate payment*. If you elect to consign your coins you can receive an *immediate liberal advance*. Whatever your preference you will be doing business with knowledgeable people. We need your coins ... and we'll pay "top prices" for them.

When you consign your coins for auction you will receive a contract that fully protects you. Your coins will be placed in maximum security vaults and fully insured. You will receive an inventory list of each and every one of your coins. Our auction will be conducted in our spacious, comfortable 250 seat auditorium, right on our premises. A professional auctioneer will auction your coins. At SUPERIOR, under one roof, everything and everybody will be working for you. The higher prices realized at SUPERIOR may put your name in the "Red Book". No collection, be it king's or common man's is beyond our purchasing power ... and we use our own capital not borrowed money. *This purchasing power means more dollars for you when you sell or consign your coins to SUPERIOR.*

Bonner Did It! Ruby Did It! Harold Lloyd Did It! Claveria Did It! Gilhausen Did It! Pradeau Did It! Major Banks Do It!
WHY DON'T YOU DO IT!

The individuals above all elected to dispose of their collections through SUPERIOR. Obviously, after years of collecting, these knowledgeable, important and famous people, who could have sold or consigned their coins to any major dealer chose SUPERIOR. Why? Simple! Just read items 1 through 6 one more time. They add up to MORE DOLLARS FOR YOU WHEN TO SELL TO SUPERIOR.

The Record Speaks for itself!

1876 CENTENNIAL EXHIBITION SILVER MEMORIAL MEDAL

The single most important medal of the Centennial Celebration, authorized by Congress and struck at the Philadelphia Mint. In the January, 1876 issue of the American Journal of Numismatics, H. W. Holland, in his comprehensive listing of Centennial Medals, states that only 10 were struck in silver.

Beautiful toning with a proof-like surface. Only minor evidence of mishandling during the past hundred years. This medal is of equal rarity and importance to many coins that have sold for between fifty and one hundred thousand dollars during the past year. The price: Five Thousand dollars.

YOUR INVENTORY CAN BE INSURED AGAINST ALL RISKS AT LOW ANA GROUP RATES

Last year, the American Numismatic Association adopted a truly unique insurance plan—the ANA Exhibitors and Coin Dealers All Risk Numismatic Insurance Plan. This insurance plan provides protection against all risks whether on a business location, at home, or on exhibition. It covers your stock while in transit and while in the custody of others.

On a group basis:

- the cost is much lower than an individual policy
- higher limits of coverage are available while stock is in transit or on exhibition
- no scheduling is required

If you are an Exhibitor or a Coin Dealer, you should look into this ANA service. You will never know how much you could have saved until you complete an application.

AREAS OF GREATEST INTEREST

- A. USA Gold-Rare date St. Gaudens, Liberty and Territorial Gold, single pcs. or whole collections. We are interested in silver and copper coins, especially pre-1900 collections and single coins. We meet and surpass all legitimate buy prices.
- B. Foreign Coins-As the leading dealer in Latin American, and especially Mexican coins, we have many good customers who buy from us exclusively and live in foreign countries. Many of them do not read or speak English and rely on us for all their coins. We buy from dealers and collectors, both at retail prices. We also have serious customers for crowns, especially high grade, high value items.

NEEDED IMMEDIATELY

- 1. Nice collection of USA gold coins.
- 2. High grade USA type collection.
- 3. Large USA coin collection, including silver \$.
- 4. Fine Mexican collections (gold and silver) 1556 to date.
- 5. Crown collection, including Latin or European coinage.
- 6. Any treasure findings from A to Z.

DOCTOR'S INVESTMENT GROUP

Dr. George Vogt, President of Colonial Coins and advisor to the Doctor's Investment Group, is still making large investments in USA and foreign gold in large lots. The investment group is also interested in rolls and bags of silver \$. unusual rolls of silver and gold coins. i.e. Unc. "V" nickels by the roll, half dimes by the roll, and proof sets prior to 1940. Please write us about your holdings and state prices desired, for the group's decision.

HOW DO YOU SELL TO US?

- A. Pack up your coins and send them to us via registered mail. Our top offer, in the form of a check, will be returned to you by return mail. We guarantee satisfaction. This is a fast cash settlement for you. We are bonded; Dun & Bradstreet rated; and secured via Memorial Bank. After obtaining our permission, you may send your coins to our bank.
- B. We also invite you to make an appointment with us for a cash settlement on the spot.
- C. We will travel to you if your collection is too large to ship, or if you live in a foreign country. We travel to Europe and South America and the Orient. Advise us the size and major rarities of your collection.
- D. Large finder's fee to persons who locate and help us to purchase collections.

Special opportunity from Lincoln Mint!

Still available to collectors! Official 1973 State Bicentennial Medallions...

**including Mt. Rushmore
Medallion struck from
original Borglum plaster!**

**Based on prize-winning designs!
Order today in Solid Sterling Silver,
individually numbered...
or Solid Antique Bronze**

ALABAMA

Governor's Bicentennial Medallion portrays Gov. George Wallace on one side... profiles of Indian, Confederate officer and astronaut on other.

CALIFORNIA

American Revolution Bicentennial Medallion depicts the State's natural beauty and historic scenes, from early explorers to Gold Rush.

ILLINOIS

American Revolution Bicentennial Medallion offers a brilliantly detailed portrait of an Indian... and the original State Capitol building.

LOUISIANA

Governor's Bicentennial Medallion is a colorful portrait of the Bayou State, from jazz and Mardi Gras to oil and cotton.

OKLAHOMA

Bicentennial Medallion shows cowboy, oil derrick, ultra-modern church... and celebrates 11th Century visit to mid-America by Vikings!

Yes, you may still own the Official 1973 American Revolution Bicentennial Medallions from six great states if you rush your order today to The Lincoln Mint! Medallions are available from Alabama, California, Illinois, Louisiana, Oklahoma...

...plus South Dakota's historic "first" in medallion art, by the creator of Mt. Rushmore! Celebrated sculptor Gutzon Borglum made a plaster in 1935—specifically for striking as a medallion—of his magnificent Mt. Rushmore National Monument. This is the design he actually intended to be carved on the mountainside, with the four presidents—Washington, Jefferson, Lincoln and Theodore Roosevelt—shown from the waist up. Only their heads were ever completed.

Now South Dakota's State Bicentennial Commission has selected The Lincoln Mint to strike their Official 1973 Bicentennial Medallion directly from the rediscovered original plaster

by Gutzon Borglum!

All six pieces shown here feature the superbly detailed deep relief and lustrous "proof" finish for which The Lincoln Mint is famed. They are the first of four yearly series of Official Bicentennial Medallions. One side of each 1 1/2"-diameter medal will be based on a winning design from the Annual High School Scholarship Contest held through 1976.

Your purchase of any Official Bicentennial Medallion from us helps support that state's Bicentennial program—and entitles you to a free membership in the American Bicentennial Society. Own any medallion either in Solid Sterling Silver, individually numbered, for only \$12.50 (except South Dakota, \$15)... or in Solid Antique Bronze for only \$3.50 (except South Dakota, \$5).

Please don't delay. Order your Official 1973 Bicentennial Medallions right now!

**A-MARK COIN COMPANY, INC. IS PLEASED TO OFFER
ONE OF THE CLASSIC AMERICAN RARITIES
A GEM SPECIMEN STRIKE 1848 "CAL" QUARTER EAGLE**

1848 CAL Quarter Eagle; only 1,389 specimens of this classic coin were ever struck. Made from California gold and specifically identified as such by the punching of the distinguishing mark of "CAL," representing California, above the eagle on the reverse. The "CAL" Quarter Eagle is probably the most

historically significant territorial gold coin ever made by the United States government, specifically intended as a commemorative issue denoting the first shipment of gold from the famed California Gold Rush time to be made into coins. The quarter eagle at the time was the smallest gold coin, the gold dollar not having been introduced until the following year.

Mr. Richard Yeoman in his prize winning article, "The 1848 Quarter Eagle with Cal," in **The Numismatist**, July, 1953; pp. 674-683; an article of great historical value related that:

"... were it not for the far-seeing awareness of a California military governor, a Secretary of War, and a small band of subordinates, the first shipment of gold from the California discovery to reach the eastern seaboard would not have been perpetuated. Nor would it have been possible for the numismatic fraternity to possess a few hundred precious specimens of the 1848 quarter eagle with CAL. to represent the biggest gold boom in United States history.

Correspondence concerning the minting of these historic pieces is quoted by Mr. Yeoman. Of... significance is the letter sent by Secretary of War W. L. Marcy to Dr. R. M. Patterson, Director of the U.S. Mint in Philadelphia. The letter read in part: 'If the metal is found to be pure gold, as I doubt not that it will be, I request you to reserve enough of it for two medals ordered by Congress and not yet completed, and the remainder, with the exception of one or two small bars, I wish to have coined and sent with the bars to this department. As many may wish to procure specimens of coin made with California gold, by exchanging other coin for it, I would suggest that it be made into quarter eagles with a distinguishing mark on each.' (signed) W. L. Marcy."

The presently offered coin is Ex: **Delp, Miles, & J. Pierce Sales** with original envelopes. In the Pierce Sale of 1961, the coin was described as follows:

"This is the famous Jerome Kern specimen sold by B. Max Mehl in his 50th Anniversary Sale in 1950. It was described under Lot #37 as follows: '1848 \$2.50 Type of the regular issue. CAL (for California) counterstamped on reverse directly above Eagle. This was stamped at the Mint while the coin was still in the die. It is to signify that it was minted from the first mined gold received at the Philadelphia Mint from California. We do not have a record of the exact number struck, but apparently the number was small. This is as beautiful a specimen of this coin I have ever seen. It was purchased by Mr. Kern as a **BRILLIANT PROOF**. [And surely] measures up to that description. As such, it is rare indeed and valuable.' (Original envelope enclosed). Under strong magnification we find that there is a fine hairline scratch below date. **SURELY ONE OF THE FINEST SPECIMENS IN EXISTENCE...**"

One of only two known proofs!

In 1961, **R. L. Miles** paid **\$6,500.00** at the **J. Pierce** sale! In that same year, of 1961, in the famous **Edwin Hyderman** Sale:

The King of American Coins — 1804 silver dollar — 15 pieces known — Idler Specimen realized \$29,000.00! Now being offered at \$200,000.00. The 1913 Liberty Head Nickel — 5 pieces known at \$50,000.00! Today unattainable!

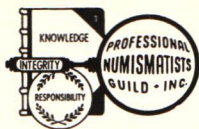

The 1894-S Dime — 12 known — realized \$13,000.00! Reported to have recently traded hands between two major dealers at \$75,000.00!

The Jerome Kern 1876 Carson City Twenty Cent piece — 12 to 14 pieces known. Realized \$6,900.00 in 1961. Currently being offered at \$75,000.00.

Considering the above value of American rarities in 1961 v.s. today's market and the ever increasing demand for major rarities,

A-MARK COIN COMPANY, INC.
is pleased to offer this Classic American Rarity for \$65,000.00

THE BIG SPENDER WANTS YOU

If you have recently thought about negotiating the transfer of your holdings, whether they be a single collection, investment cache, lifetime accumulation or for that matter any item or items of numismatic interest, The Old Roman, Inc. is the buyer for you. The Old Roman is currently generating revenues with many of the largest corporations in the nation, a number even being in Fortunes top 50. Further the Old Roman serves in a procurement and advisory capacity to some of the most renowned and impressive museums, libraries, and private collections in the world. Couple this with the fact that we are one of the world's largest rare coin dealerships and you can see how genuine and constant is our need for new material.

Our needs are not limited to any particular item or items. Whatever area of endeavor you may have pursued just so long as it can be defined numismatically will suit the Old Roman quite well. THERE ARE NO QUALIFICATIONS AS TO QUANTITY OR GRADE, be it 1 Proof specimen or 1,000 AG specimens. In a word, we're as flexible as you are.

Competition is keen for the purchase of coins. We are currently spending six figure money every month in the pursuit of merchandise. Whether it is a \$5.00 transaction or a \$500,000 transaction, there is no limit as far as the value of the item or items you wish to sell. We now take this opportunity to invite you to sell us your holdings. This is a simple procedure THAT WILL COST YOU NOTHING!

(1) Pack your items securely and forward them to the address below via U.S. Mail, U.P.S. or REA. Be sure to adequately insure the contents of your parcel. Upon receipt of same a member of our purchasing division will be personally assigned to your shipment and a check will be forwarded to you immediately upon receipt of your shipment to which you may either accept or refuse.

(2) Should you feel a personal visit will be necessary for one reason or another, feel free to write or call us collect so we may make the necessary arrangements. Naturally, your confidence and goodwill are sacred to us.

In addition to an immediate cash offer on your coins we will include the full cost of forwarding your coins to us in our offer. Should you refuse our offer, which is in itself unlikely, we will promptly return your coins to you Postpaid, with an additional check for all shipping costs incurred by you. IN A WORD WE PAY FOR EVERYTHING ONE WAY OR THE OTHER. A stronger offer just can't be made! Don't let previous disappointments or differences with others stop you from dealing with us. Here at the OLD ROMAN WE MEAN BUSINESS.

You might be interested to know that the financial stability of the Old Roman is such that our credit is unquestioned throughout the coin industry. When it comes to payment you are the boss, whatever form this may take, Company check, Certified check, Bank Draft, Wire or if you wish, Cash on the barrel head.

Our commissions to finders are the most generous in all of coindom. Should you be in the position to negotiate the transfer of someone else's holding, it will pay you well to contact us.

In conclusion we feel our offer to buy is sincere, genuine and certainly as strong as is possible. Since you incur no expense or obligation whatsoever. If there is something yet unsettled in your mind, please feel free to call us collect as we would love to hear from you today.

By merging into one large firm we now hope to be able to serve our clients more effectively. We now have a far greater inventory of Ancient and Medieval coins and artifacts, as well as greatly increased purchasing power. As always we will continue to publish the Journal of Numismatic Fine Arts (JNFA) on a quarterly basis. Our Fall, 1974 JNFA is a SPECIAL issue commemorating the formation of NUMISMATIC FINE ARTS, INC. This "3 in 1" issue offers over \$1,000,000 in ancient Greek, Roman and Byzantine gold, silver and bronze. Included are the largest collection of Axumite, Ptolemaic and Byzantine coins recently offered for sale.

If you have not yet subscribed to JNFA, send \$8.00 (\$12.00 Air) to:

ONE CATALOG YOU CAN'T GET ALONG WITHOUT

Each and every one of the more than 8,000 numismatic issues — coins, commemorative and art medals, gaming and related tokens, silver ingots and plates, and political pieces — produced by The Franklin Mint from its establishment in 1965 through 1973 is cataloged in this complete GUIDE BOOK OF FRANKLIN MINT ISSUES authored by Virginia Culver and Chester L. Krause. Each listing includes detailed information on size, metallic composition, year of issue, mintage and issue price of the individual pieces . . . plus their current market values. The volume also features both subject and sculptor indexes of the listings. This valuable, informative work is priced at just \$6.50 from your local dealer, or direct from the publisher if not otherwise available:

EXCESSIVELY RARE GEM UNCIRCULATED

1876-CC Twenty Cent Piece

1876-1976 Centennial Year Rarity

We are pleased to present the fabulous Kern specimen of the extremely rare 1876-CC twenty cent piece in pristine gem uncirculated condition. This coin is undoubtedly one of the most underpriced major rarities in the entire spectrum of U.S. Numismatics, since it compares favorably with rarity of the 1804 dollar, now selling for close to the \$200,000.00 figure.

The condition of the coin is virtually unimprovable, since it appears to be a specimen or presentation striking, a situation which would account both for its survival and for its impeccable condition. A soft, velvet-like toning adds to the virgin-like qualities of the coin, and the reverse is a fully proof-like striking. The LIBERTY is doubled in the obverse, which is the major characteristic of a genuine 1876-CC twenty cent piece.

As with the condition, the pedigree is likewise first class: this is the specimen owned by noted composer Jerome Kern, whose melodies — "Smoke Gets In Your Eyes" and "Ol Man River" as examples — are all time American favorites. From the Kern Collection it went to Edwin Hydeman, a discriminating numismatist whose collection was sold at auction by A. Kosoff in 1961. The next owner was Joe Flynn, Jr., a Kansas City coin dealer. The coin then went via an intermediary to the American Auction Association sale of the Armand Champa collection. A prominent California numismatist was the successful bidder at the above 1972 auction. His agent, Bowers and Ruddy Galleries, then sold the coin to us early this year.

Although 10,000 1876-CC 20-cent pieces were struck, only a dozen are known to exist today, making it one of the rarest regular issue coins ever struck by the U.S. Mint. The rarity of the coin is explained by a communication in the Mint Archives which was written by Mint Director H. R. Linderman on March 19, 1877, and addressed to Jas. Crawford, Superintendent of the U.S. Mint at Carson City. It stated "You are hereby authorized and directed to melt all twenty-cent pieces you have on hand, and you will debit 'Silver Profit Fund' with any loss thereon."

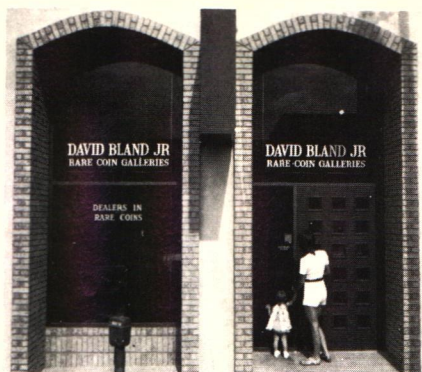

Other than this specimen, only two other 1876-CC twenty cent pieces have been offered for sale since 1965, as far as we know. One specimen was offered as lot 874 in Stack's sale of the R. L. Miles, Jr. sale of April 10, 1969. Their coin sold for \$16,000.00 a figure which was considered astronomical at that time. The other sale was a reported dealer-to-dealer transaction at the 1973 ANA convention when an AU coin brought \$50,000.00.

You may examine the above coin at our table at the ANA Conventin in Miami, August 13-18. Considering the fact that a single coin has already broken the Quarter-of-a-Million-Dollar barrier, and with the current strength of the rare coin market, the excellent pedigree and unsurpassable quality of this piece we feel it is very reasonably priced at:

WANTED

America's best buyer of Rare coins urgently needs your collection!

As one of America's foremost Rare Coin firms the demands on our inventory are extensive, requiring us to purchase Choice and Rare Coins at an ever expanding rate.

We Want To Buy: Your entire collection is urgently needed no matter what the size, if it contains the items we are looking for. Generally we are interested in any collection which contains Choice and Rare coins and early U. S. coins in AU or better condition.

Individual Coins: We are sincerely interested in individual sets and single coins as well as complete collections. We are particularly interested in worthwhile numismatic items that retail over \$10.00 each. Our needs range from Colonials thru Gold including rare dates as well as more common dates in Choice condition.

Selling to US: You will find that selling to our Rare Coin Galleries is easy and safe. Here is all you do — Package your coins carefully and send them to us by insured or registered mail. Immediately upon receipt of your coins David Bland, Jr., will personally examine your coins and send you our generous offer in the form of a confidential insured check. Upon receipt of our offer you can notify us of your decision to sell (nearly every one of the thousands of offers we have made over the past decade has been accepted). If for any reason you decide not to sell, your coins will be returned to you by insured mail at our expense. If your collection is too large to mail please send an itemized inventory to the attention of David Bland, Jr., and we will travel to you if the size of the collection warrants it.

You Will Receive More For Your Coins: Because our needs are so great at this time we will pay more than any other major dealer in the U. S. Why not sell to us as thousands of other satisfied collectors have.

For references you may apply to any numismatic publication or numismatic organization. We are members of: The American Numismatic Association (Mr. Bland is Life Member 677); Professional Numismatists Guild; Texas Numismatic Association; etc.

MORE ON OUR NATIONWIDE BUYING SERVICE

The success of our nationwide buying service was entirely contingent upon you-and you have made it successful. From Maine to Hawaii, we have received countless collections to buy. In the two years since the beginning of our nationwide buying service, we have purchased 87.4% of these collections. This has enabled us to expand our retail sales, but even more important, it has instituted a rational, reasonable, and secure way for you to sell your collection. To those of you who have sold us material, we pledge our continued fair and upright dealings. For those of you that we have not yet met, we urge you to take advantage of our nationwide buying service.

Here is what we are able to provide:

1. Unlimited instant cash (confidential, of course, if you wish).
2. Bank references available. (Contact Mr. Bill Whitsitt at Citizens National Bank, 2001 Bryan Tower, Dallas, or Mr. Steve Parker, Texas Bank & Trust, One Main Place, Dallas.)
3. Call us collect at (214) 748-4044 or (214) 748-4045 if you desire to sell a large collection, or you may ship your collection with invoice to Mike Follett Rare Coins, Plaza Level, One Main Place, Dallas, Texas 75250. Within 24 to 48 hours, you will receive our generous offer by return mail.
Should you decide not to sell your collection, we will return your coins immediately upon hearing from you. Naturally, the coins will be fully insured and we will pay all postage. As mentioned above, 87.4% of those who have sent us coins in this manner have sold their collection. Through this method, you risk absolutely nothing.
4. Should you have an extremely large collection, we can and will be at your home, office, or bank anywhere in the U.S.A. within 24 hours of your call.
5. We are prepared to buy your entire collection, not just the choice material.
6. You are selling to a coin retailer, not someone who sells to another dealer. This is so important. Consequently, you will receive the highest possible price.
7. The company you will be dealing with is known and respected throughout the numismatic world. Backed with 13 years of experience in buying, selling, and grading coins, Mike Follett Rare Coins has established itself as a leader in the numismatic fraternity. Your coins will be inspected by either Mike Follett or Don Willis. Mr. Willis, formerly of Marlow, Oklahoma, is also widely known for his knowledge of numismatics. He is a member of the P.N.G., T.N.A., and A.N.A. It is with great pride that we welcome him in our organization in order that we may be better able to serve you.

We are in particular need of the following numismatic items: all choice type material, early bust dollars and quarters in any grade, all key and semi-key coins with a wholesale value of \$10 or more, scarce and rare dates in seated quarters or halves, and all U.S.A. and foreign gold — both rare and common. As we have marketed 19 coins with retail value of over \$25,000 each during the last twelve months, we desperately need rare and unique material.

To conclude, take advantage of our policy. It is a service that thousands of satisfied customers have found profitable and safe. We sincerely believe that we can go further in meeting your individual needs than any other buying program offered today.

**It takes a lot more than luck to sell
over five million dollars worth of rare coins at
public auction sales
...In just one year!**

a new record in rare coins? sure!

But not by accident. That much auction volume; handled by one organization — with its own staff under a single roof — is the result of a lot of painstaking, professional effort.

It's the kind of effort that has made STACK'S the acknowledged leader in public coin auctions. No other numismatic firm can offer its clients the same unexcelled facilities, the same reputation for integrity, the same expert staff in every area of numismatics, the same unbroken record of success in its public auctions. No other numismatic firm can offer the depth of experience — the same personal, skilled services — the same total numismatic knowledge.

If you are considering the sale of a coin collection; talk to STACK'S. Discover the practical advantages of doing business with the very best.

NEW BOOKS FROM ARES

HISTORY OF ANCIENT COINAGE, B.C. 700—300. *P. Gardner.*

Reprinted from the 1918 edition, this is the well written and accurate story of ancient coinage from its earliest beginnings to the pinnacles of artistic achievement reached in Hellenistic times. One of the great numismatic scholars at his very best. Richly illustrated, this is a necessary reference work for all students of ancient Greek coins. Excellent plates!

ISBN 0-89005-007-4. 492 pp. + 11 pl.

\$15

THE ANCIENT BOEOTIANS AND THE COINAGE OF BOEOTIA. *W. Rhys Roberts and Barclay V. Head.*

ARES has combined *both* of these excellent historical and numismatic reference works in one volume. Roberts explores the artistic, political and cultural history of Boeotia. Head describes and analyzes its ancient coinage from the earliest beginnings through Roman times. Both sections feature detailed date charts of important epochs and historical events for easy reference. With its many features, this work is a *must* for both the numismatist and the scholar of history.

ISBN 0-89005-070-8. 208 pp. + 6 pl.

\$10

ATHENS, ITS HISTORY AND COINAGE BEFORE THE PERSIAN INVASION. *Charles Seltman.*

Reprinted from the 1924 edition, this work, remains a monument to numismatic scholarship. The author has produced a handbook in one volume which correlates the political and artistic history of Athens with that city's early coinage. Considered the basic reference work on both the history and the numismatics of early Athens. Numerous text illustrations and excellent plates. Original large format.

ISBN 0-89005-002-3. 228 pp. + 24 pl.

\$25

SELECT GREEK COINS. *George F. Hill.*

The great value of Greek coins as intact masterpieces of ancient art is wonderfully demonstrated in this volume. The finest style coins in the British Museum were carefully photographed and enlarged to bring to life the greatest detail and display their artistic merits to the fullest. An unsurpassed guide to excellence and the best reference to finest style by one of the foremost experts of this century. It is a connoisseur's selection which will give many hours of pleasure to both the collector and lovers of fine art the world over. Large format. An ARES exclusive!

GENUINE U.S. MINT COIN DIES ...

Used to make the 1968-s proof sets. Only 4,500 were released, and the mint has since spent over \$50,000 on equipment to melt all future dies. Thus, no more can ever be available to the public.

A unique opportunity!

All dies have been defaced by the mint, and are completely legal to own. We offer a single coin die for only:

\$24.00

or a set of 10 for **\$225.00**

Satisfaction guaranteed — (10 day 100% money-back guarantee)

What's a Numistamp?

Not a Stamp! Not a Coin!

It's a Delightful Medallionic Merger of the Two!

**United States
Numistamps Proclaimed
more Beautiful than
Actual Coins Portrayed.**

See for Yourself...

Enjoy New...More Exciting...Less Expensive Type Collecting...

A Collector's Dream

Discriminating professional coin collectors have proclaimed Numistamps more beautiful than their prototypes.

Numistamps offer an opportunity to own specimens of every denomination and design of coins issued by the United States Mint from 1793 to date . . . 117 in all . . . at very modest prices.

Designer Expert Numismatist

Morton Reed, widely known for his syndicated column, *Money Clips*, and his regular *Coin World* feature, *Coinology*, is developer of the Numistamp concept and designer of the several series.

Start Your Collection Now

Numistamps—an exciting and completely new concept in type collecting—are not only conversation pieces, but offer substantial appreciation in value because of the limited issues.

Send now for complete details on this exciting new concept in collecting. Remember this is a limited edition, so act now. These sets are sold on a first come, first serve basis.

United States Numistamp
Presidential Art Building
300 West National Road
Vandalia, Ohio 45377

Exactness of Detail

A Numistamp is a metal plaquette bearing exact, intricately detailed reproductions, in high relief of the Obverse and Reverse of an actual coin.

Issued in Limited Series

Each Numistamp series is limited to 4,000 serially numbered sets. Two new Numistamps will be issued each month.

Material and Size

The base metal of Numistamps is copper. The finishes closely resemble the coins they portray. Plaquettes measure 1-3/8 x 2-1/4 inches.

Dear Kurt:

Without your help National Coin Week would not have been the success that it was. You and fellow members of ANA were responsible for enrolling over 1800 new members - a new record.

As a token of appreciation and in recognition of your being in a group of less than 25 that signed up ten or more members, please accept this silver National Coin Week 50th Anniversary Commemorative Medal.

It is as rare a medal as your service and dedication to the association.

This work, 20 years in the making, is being published by SPMC to bring out many heretofore unpublished facts covering the 70 years (1865-1935) of Western Americana banking in the Silver State.

Among the many features are:

\$17.50 post paid

- The National Currency that took 3 months to arrive, via Cape Horn!
- Rhyolite, the Queen of the Bananza Road and the "Bullfrog"
- The causes of the failure of the Reno National
- Nevada's "seventeenth" National Bank that operated in Virginia City
- A. P. Giannini's bank allowed to open during the State bank holiday
- The only First Charter note and the only bank to issue Brown Backs
- List of Nevada National bank notes, those reported and unreported
- The Nevada Territory and eventual Statehood
- Many new items of scrip
- The "WILDCAT" bank of Round Mountain, Nevada
- U. S. Currency discounted

A UNIQUE SERIES

THE LOMBARDO MINT is pleased to announce the release of the second Pure Silver Ingot in our series of Christmas Around the World Bars. Each mint-marked ingot is certified to contain 2 ounces of .999 Fine Silver, and measures 1.745" x .905".

The 1974 Ingot, pictured above, honors CHRISTMAS IN IRELAND, and shows a street in a typical Irish village. A lighted candle shines through a window in the foreground, above which appears the inscription "CEAD MILLE FAILTE" (One Hundred Thousand Welcomes). A cascade of shamrocks, the national emblem of the Irish, delineates the right edge of the design. In the distance can be seen a famous Dublin landmark, the O'Connell Monument, built in memory of the great Irish patriot. In the lower left-hand corner, a tiny leprechaun, perched atop a stone wall, adds a bit of Irish whimsy.

GIFT BOXED, PERSONALIZED . . .

The cost of each ingot is a modest \$25.00, including packaging in a specially designed gift box. The Lombardo Mint will accept orders until November 25 for Christmas delivery. As a special service, we will mail an ingot directly to each person designated by you, along with a hand-written gift card with your Christmas greetings. Then, in mid-October of following years, you will be reminded of future offerings, so that you may continue the tradition of sending Christmas Ingots to your friends and relatives.

The Most Important Sale Ever Held Of The Paper Money of Mexico

NOVEMBER 20, 1974

I have purchased the largest, most complete collection of Mexican bills ever assembled, and in November I will hold a Mail Bid Sale of many of the better pieces.

Hundreds of major types will be offered as well as many varieties by series, date and signature, the largest offering by far of the bills of this important country.

INCLUDED IN THE OFFERING ARE:

- Hundreds of Bills Used To illustrate The Gaytan Catalogues.
- Many Rare and unusual Items Such As The 99¢ Bill of Batopilas.
- Many One-Of-A-Kind Pieces.
- Several Hundred Uncatalogued Major Types.
- Many Hard-To-Find Bank Bills In Higher Denominations.
- Rare Resellos and Branch Overprints.

The catalog for the sale will be ready in early November, and I expect that it will be a major reference in the field of Mexican bills.

If you would like one, send me a check for \$3.00, and I will mail your copy to you right away. The \$3.00 will be refunded to persons who win lots in the auction.

When the sale is over, you will receive a copy of the prices realized, and your name will be placed on my mailing list for our regular price lists, of the coins, medals, and paper money of Mexico.

While coins of Alexander the Great and Julius Caesar are fairly easy to come by, the third greatest general of Ancient times, Hannibal, is only on one coin, and you can wait for years just to see it come up for sale. It is **that** rare, and is missing from almost all great collections. We are fortunate to have a specimen of this interesting and important rarity in a pleasing Very Fine condition, and consider it a great opportunity for a museum or private collector to acquire this treasure at \$3,000.00

Collection of Ancient Greek Bronze Coins

A quality collection totaling 1,042 coins, and representing most of the Greek city-states. Most are in a minimum of Choice Fine condition, and quite a number in lovely Very Fine to Extremely Fine. Most of the coins sell in the \$40.00 to \$75.00 range singly, so this is a tremendous investment opportunity at \$14,500.00, which is less than \$14.00 per coin.

A fortunate purchase of Volume No. 1 in the new series. 'The World of Numismatics', "Ancient Greek Coins", by G. K. Jenkins, curator of the coin and medal department of the British Museum, which is being raved about by everyone who has read it, as the most interestingly written and beautifully illustrated and bound book ever on the subject. Selling everywhere at \$25.00, we have a limited quantity on hand below wholesale at .. 16.50

RARE FRAME FEDERAL RESERVE NOTES

Original frame as issued by the Government consisting of "Die proof impressions of the faces and backs of Federal Reserve Notes, for William J. Martin, Confidential Secretary of the Treasury, with the compliments of the Director of Bureau of Engraving and Printing Washington, D. C. April 9, 1915 (Signed) J. E. Ralph, Director."

Notes similar Fr. 836, 896, 956, 1016 and 1076. Seal of District and District Number and letter 5-E, plus note number E0000000A pasted on. Nine of the notes printed on cream-colored paper, one on bright white. We know of only one other original frame and it is in the Yale University Coin Room.

Size of frame 39" high x 31 1/4" wide. The frame, dark oak finish with gold trim inside. There are two minor faults — one nail hole tear above seal design at top of frame and another at bottom. Neither fault effects value or appearance and are mentioned for sake of accuracy. Priced at \$5000.00 (shipping and crating extra).

*Special section on gold
and silver content of all
world coins.*

True to Whitman's undisputed leadership in numismatic publishing, the Catalog of Modern World Coins features — for the first time ever — a special 10-page section detailing gold and silver content of all world coins issued from about 1850 to 1950. This, together with completely revised and updated coin values, makes the 11th edition of the standard reference on world coinage by type a must volume for every informed collector. Hundreds of new listings and illustrations have been incorporated into the world-renowned Yeoman numbering system. 512 pages of facts and figures, hardbound, at your dealer's. **No. 9053. \$7.00**

NOT ALL COINS ARE WORTH THE PRICE

Most coin dealers and collectors you know want to sell you **genuine, unaltered** collectible coins. But all too often the coins are counterfeit or have been altered to appear to be a rare type. For example, many 1916 dimes have had "D" mintmarks added to increase their value by \$100 to \$500. The same alteration has been made on thousands of 1909-S VDB cents, 1892 and 1893-S dollars, and 1942 over 1 dimes. The targets of the counterfeiters and coin alterers are virtually unlimited.

In 1972 the ANA opened its certification service, which is totally devoted to one purpose: protecting you from buying bad coins. Protect yourself by having ANA Certification Service (ANACS) examine your "key" coins soon after you buy them. If they are good, the coins are worth more because you offer a photographic certificate of genuineness with them when you sell them. But if your coins are bad, you have ANA behind you as you request refund on your purchase.

Is ANACS always right? In 98.5% of the cases it is! And if you have **serious** reason to question ANACS's findings, the staff will be happy to re-examine your coin **at no cost to you!**

In a letter or on an ANACS "Request for Certification" form, give the following information:

Your name and address (plus ZIP)

Description of coin(s) to include country, date, denomination, metal, and other data (condition, etc.) which you wish to state.

The value of the coin, if genuine. (Our insurance company **must** have a stated value to determine its liability. This is for your protection as well as ours.)

Enclose a check or money order (payable to ANACS) to cover the costs of authentication, based on your stated value of the coin and on the return postal costs. Compute as follows:

(1) Coin Value	Service Fee
\$ 0 — \$150	\$6.00
151 — 300	9.00
301 — 500	12.00
Over \$500 ...	3% of stated value

If an ANA member, state your membership number and deduct 10% of the base fee.

(2) Postage and insurance for return. When you mail your coins to ANACS, add to your remittance the approximate amount of return postage as determined by your post office clerk. ANACS does not challenge return postage fees as long as they are reasonably accurate.

SIMPLE AS A-B-C! Prepare coin for shipment, provide data on you, your coins and their values, and enclose check for service fee (plus return postage and insurance). It's all explained above.

HASTY SELLING VS. QUICK BORROWING

Selling your collection can be profitable if you have enough time to find the best prices. *But a collection sold quickly is seldom sold profitably.*

In any emergency, borrow the money you need at *Edelman's*. Use your collection as collateral and still retain complete ownership.

At *Edelman's*, you can obtain quick confidential loans for any amount up to 80% of the value of your properties — from \$50 to \$50,000 and more. Take as long as 30 months to pay with a repayment plan tailored to your specific needs. Your collection will be safely protected in *Edelman's* air-conditioned vaults until you reclaim it. Write today for further information.

SILVER BUY DIRECT & SAVE

For "solid" wealth many investors are turning to the "Letcher Eagle." It's ONE TROY OUNCE, PURE SILVER (.999). Each piece is larger than a dollar and certified as to weight and quality. Best of all, this form of silver can be purchased directly from The Letcher Mint at a cost only slightly higher than the New York spot price of silver on the day of purchase. For the first time, individuals as well as dealers can buy this convenient form of Pure Silver at reasonable bulk rates.

Price on a "per Troy Ounce" weight basis in bags, F.O.B. Mint at Lancaster, California:

1000 to 9999	at 75c over N.Y. spot
10,000 to 50,000	at 45c over N.Y. spot
over 50,000	at 27c over N.Y. spot

Shipment generally will be made in less than a week's time via Air Freight, Rail Express or armored car service.

Important New Reference Catalog CONTEMPORARY WORLD GOLD COINS

1934 - 1974

by

Stanford J. Durst
(ANA 76099)

BRINGS TOGETHER FOR THE FIRST TIME WELL ORGANIZED DETAILED COMPLETE INFORMATION ON OVER
600 MODERN GOLD COINS PREVIOUSLY UNAVAILABLE TO U.S. INVESTORS/COLLECTORS.

1. Complete country-by-country list (over 120 countries) and description of all gold, platinum and palladium coins minted worldwide from 1934-1974, the four decades during which U.S. citizens were prohibited from owning modern gold coins.
2. Up-to-date retail values on the international market.
3. Gives sizes, weights, fineness, mintages, photos.
4. Important comments on rarity, counterfeits, proofs and other valuable data.
5. Lists popular bullion coins with weights and values at various gold bullion prices.
6. Details on gold coins announced but not yet issued.
7. Periodic market value and new issue update service available to subscribers, will keep this catalog current.

Pre-publication price \$4.95 (including postage)
N. Y. State residents add 8% Sales Tax
After January 1, 1975 \$5.95

HOLLANDER COIN ALBUMS

The most flexible coin holder system ever
devised

- No unsightly empty openings
- Coins completely visible on both sides, yet securely held
- 4 album sizes
- Holds coins and medals 8 to 50mm

Ideal for mounting U.S. coins. The 51 different diameter openings make the albums particularly desirable for mounting medals and foreign coins.

SWANN COIN CABINETS

Swann COIN CABINETS house some of the finest collections in Europe, including many museums and the entire Royal Mint coin collection in London.

An exquisite mahogany cabinet is now available to collectors in the U.S.A. It is 7½" high, 10½" wide and 9½" deep. The figured mahogany panelled door hinges at the base and is fitted with a brass lock.

The 13 sliding mahogany trays have rosewood fronts and 3/16" deep, felt lined circular recesses.

They are made to hold:

- A 30 coins of 1½" diameter
- B 20 coins of 1¾" diameter
- C 12 coins of 1¾" diameter
- D 6 coins of 2½" diameter

Any combination of trays A to D can be supplied to a total of 13.

The inclusive price delivered by air to the U.S.A. is \$250.00. Orders should be sent direct to the makers in northern England:

H. S. SWANN,

Bernard House,
Heddon-on-the-Wall,
Newcastle upon
Tyne, NE15 0BG.

Other larger cabinets holding between 400 and 6000 coins are made to special order, including cabinets to fit safes.

COSTING TOO MUCH ?

Is your hobby beginning to cost too much? Why collect coins if you can't enjoy it? While many coins are being priced out of the market, and new "controlled" proof sets are costing more and more at offering prices, there is one group of coins which you can get at prices which will give you pleasure — MODERN FOREIGN COINS.

We are not going to talk about investment returns, but just fun. Sure, if you hold on to them over the years, you will make a profit, based upon past experiences, but why not forget it, and enjoy yourself with inexpensive coins which are both interesting and attractive?

MODERN FOREIGN COINS, including NEW AND RECENT ISSUES, are my specialty, and they are available in my lists at prices ranging from 10c on up. If you want expensive coins, there are even some of them, but most are low in price.

Please write for my current price lists, and prove to yourself that you can still get some fun from your hobby.

BUYING MEXICO

We are specialists in Mexican coinage and must continually buy in order to have sufficient stock to satisfy our large clientele.

We buy all Mexican coins — not just choice coins and extreme rarities. We pay top dollar for all classes of Mexican coins because we retail them all ourselves. We do not try to buy low so that we can wholesale these coins to another dealer.

Simply send your coins to us registered or insured for their full value and our check will be dispatched to you by air mail within hours.

WE HAVE NEVER HAD ONE OF OUR CHECKS RETURNED SO FAR, however, we will hold your coins intact pending your acceptance of our offer. To decline our offer, you need only to return the check and your coins will be returned to you at our expense.

We guarantee to pay more than any legitimate advertised buy price for Mexican coins in any numismatic publication! What stronger offer could we make?

WANTED SWISS 1896-COINS

I need all the Swiss copper & silver coins dated 1896 (except the 20-Rappen) to finish my personal date collection. These coins are VERY RARE. Also VERY VALUABLE. I'm not looking for a bargain. I'm prepared to pay very well for any singles you might have, or I'd be especially delighted to buy a nice set. I'd even pay a finder's fee to anyone who locates a set, that I buy. May I hear from you? Thanks.

MEDALS

Highest prices paid for all well preserved medals from PORTUGAL, BRAZIL & SPAIN in gold-silver-bronze from the earliest periods to 1840. Some of the later ones also wanted.

This includes all so-called "Proclamation-pieces" issued by the Spanish kings in Spain and LATIN AMERICA. I also buy coins from these countries prior to 1900.
